1. Which file format is used to save MS PowerPoint templates?

RRB NTPC CBT-1, 12/06/2025 (Shift-02)

- (a) .pptx (b) .potx
(c) .ppmx (d) .ppsx

Exp.- MS PowerPoint templates are saved in the .potx file format, and this file extension is used in PowerPoint 2007 and later versions. **Ans. (b)**

2. In most Unix-based operating systems, which command is used to create an empty file if it does not already exist?

RRB NTPC CBT-1, 11/06/2025 (Shift-01)

- (a) cp (b) mkdir
(c) touch (d) mkfile

Exp.- In most Unix-based operating systems, the touch command is used to create an empty file if it does not already exist. **Ans. (c)**

3. Consider a hierarchical file system. If a user tries to delete a non-empty directory using the standard 'delete directory' command without any recursive option, what will be the most likely result?

RRB NTPC CBT-1, 06/06/2025 (Shift-02)

- (a) The operating system will prompt the user for confirmation to delete each item inside the directory.
(b) Only the directory structure will be removed, and the files and subdirectories will become orphaned.
(c) The operating system will automatically delete all files and subdirectories inside it.
(d) The operating system will return an error indicating that the directory is not empty.

Exp.- When a user uses the standard 'delete directory' command (such as rmdir in Unix/Linux or rmdir/rmdir in Windows) without the recursive option, this command can only delete an empty directory. If the directory contains any file or subdirectory, the operating system will give an error message, such as:

- Unix/Linux: rmdir: failed to remove 'dirname': Directory not empty
- Windows: The directory is not empty.

Ans. (d)

4. In Windows 10 CMD, which command will delete all .log files in the current directory without confirmation?

RRB NTPC CBT-1, 06/06/2025 (Shift-01)

- (a) del *.log /q (b) erase *.log
(c) del *.log (d) del *.log/p

Exp.- The command `**del *.log /q**` in Windows 10 CMD deletes all .log files in the current directory without any confirmation. **Ans. (a)**

5. In a long MS Word document, several instances of a product name have a specific character style applied. If the font and color of all these instances need to be changed, what is the most efficient method?

RRB NTPC CBT-1, 10/06/2025 (Shift-02)

- (a) Use the 'Find and Replace' function with formatting options.
(b) Select each instance manually and apply the new formatting.
(c) Use 'Format Painter' to copy formatting from one instance and apply it to others.
(d) Modify the definition of the character style.

Exp.- In Microsoft Word, if a specific character style is already applied to text, modifying the definition of that style is the fastest and most efficient method. **Ans. (d)**

6. In modern CPUs, which technology is used to execute multiple instructions simultaneously?

RRB NTPC CBT-1, 06/06/2025 (Shift-03)

- (a) Pipelining
(b) Serial Processing
(c) Clock Synchronization
(d) Sequential Execution

Exp.- In modern CPUs, technologies such as pipelining, multi-core processing, and hyperthreading are used to execute multiple instructions simultaneously. **Ans. (a)**

7. In which of the following scenarios would using a three-dimensional reference in an MS Excel formula be most effectively required?

RRB NTPC CBT-1, 24/06/2025 (Shift-03)

- (a) Creating a chart that visualizes data points obtained from multiple different workbooks.
(b) Applying conditional formatting to a range of cells in another worksheet of the same workbook based on values.
(c) Calculating average sales data for the same product category across multiple non-contiguous worksheets, each representing monthly data for a year, from a specific cell in a sequence of uniformly structured worksheets.
(d) Adding values.

Exp.- Using a three-dimensional reference in Excel is very useful when you need to reference cells located in the same position across multiple worksheets, such as adding, subtracting, multiplying, or dividing values. **Ans. (d)**

8. Which keyboard shortcut opens the Windows 11 OS Settings menu to change system settings?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) Windows + I
(b) Ctrl + Shift + Esc
(c) Windows key + S
(d) Alt + Tab

Exp.- In Windows 11, the keyboard shortcut Windows + I is used to change system settings.

- **Windows + I** – To change system settings in Windows 11
- **Ctrl + Shift + Esc** – To directly open the Windows Task Manager
- **Windows + S** – To open the Windows Search Bar
- **Alt + Tab** – To quickly switch between open apps or windows

Ans. (a)

9. In which version of Windows was the Start menu introduced?

RRB NTPC CBT-1, 12/06/2025 (Shift-02)

- (a) Windows 7 (b) Windows 10
(c) Windows 95 (d) Windows XP

Exp.- The Start menu was first introduced in the Windows 95 version of Windows.

- **Windows XP** = eXPerience, designed to provide a better, faster, and more user-friendly experience.
- **Windows 10** – Came after Windows 7 and Windows 8.1, created to combine features of both for a better experience.

Ans. (c)

10. Which of the following is an example of a mixed cell reference in MS Excel?

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) \$A\$1 (b) \$A1
(c) =SUM(A1:A5) (d) A1

Exp.- In MS Excel, a “mixed cell reference” means that one part of the cell reference is absolute and the other part is relative. Example – **\$A1** **Ans. (b)**

11. Which of the following options correctly describes the function of the ‘Spill Range’ feature introduced in the newer versions of MS Excel?

RRB NTPC CBT-1, 12/06/2025 (Shift-01)

- (a) It automatically saves the workbook to a cloud location at predefined intervals.
(b) It dynamically adjusts the size of the formula’s output range when the formula returns multiple values.
(c) It restricts data entry to a specific range of cells based on predefined criteria.
(d) It allows multiple users to simultaneously edit different ranges in the same worksheet.

Exp.- The “Spill Range” feature changes the size of the output range of values generated by a dynamic array formula. **Ans. (b)**

12. Which of the following statements does not describe the primary difference between SRAM and DRAM in terms of their internal architecture and performance characteristics?

RRB NTPC CBT-1, 24/06/2025 (Shift-03)

- (a) SRAM is highly fast due to its simple design and does not require data refresh, whereas DRAM is slower because it requires periodic data refresh.
(b) SRAM uses more transistors per bit to store data, providing faster access time compared to DRAM.
(c) SRAM uses more transistors (typically six per cell), making it less dense, whereas DRAM uses only one transistor and one capacitor per cell, making it more compact.
(d) SRAM is relatively fast and expensive, making it suitable for main system memory, whereas DRAM is relatively slow and cheap, making it ideal for cache memory.

Exp.- SRAM and DRAM are two main types of RAM where SRAM (Static RAM) stores data as voltage in transistors and is used in cache memory due to being fast and expensive, while DRAM (Dynamic RAM) stores data as charge in capacitors and is used as main system memory because it is relatively slower but cost-effective. **Ans. (d)**

13. In the context of the computer memory hierarchy, which of the following statements is generally true regarding access speed and cost per bit as we move from registers toward secondary storage?

RRB NTPC CBT-1, 13/06/2025 (Shift-02)

- (a) Access speed increases and cost per bit decreases.
(b) Access speed decreases and cost per bit decreases.
(c) Access speed decreases and cost per bit increases.
(d) Access speed increases and cost per bit increases.

Exp.- In the computer memory hierarchy, as we move from registers → cache → main memory (RAM) → secondary storage (such as HDD, SSD):

- Access speed: gradually decreases.
- Cost per bit: gradually decreases.

Ans. (b)

14. When saving an MS PowerPoint presentation, what is the primary purpose of the ‘Save as Picture Presentation’ option?

RRB NTPC CBT-1, 23/06/2025 (Shift-03)

- (a) To save each slide as a separate image file in a folder.
(b) To embed a static image of the first slide as a preview.
(c) To optimize the presentation for viewing on low-bandwidth internet connections.
(d) To prevent any further editing of the presentation content.

Exp.- The main purpose of the ‘Save as Picture Presentation’ option in MS PowerPoint is to convert all slides of the presentation into images, creating a file that can be easily viewed on any device but cannot be edited, thereby protecting the content. **Ans. (d)**

15. In a Windows-based system, which combination of the Alt key is most likely to display the contextual control menu of the active window, especially when the title bar is inaccessible?

RRB NTPC CBT-1, 16/06/2025 (Shift-01)

- (a) Alt + F10 (b) Alt + F4
(c) Alt + Space (d) Alt + Del

Exp.- In Windows OS, **Alt + Space** is a keyboard shortcut used to open the context menu or control menu of an active window. **Ans. (c)**

16. Which of the following devices is also known as a Visual Display Unit (VDU)?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) Printer (b) Trackball
(c) Monitor (d) Scanner

Exp.- A Visual Display Unit (VDU) is a device used to display visual information.

- A **monitor** is a type of VDU that shows data processed by the computer to the user in the form of graphics and text. **Ans. (c)**

17. Which of the following numbers is used to represent the ASCII value of the uppercase letter ‘B’?

RRB NTPC CBT-1, 24/06/2025 (Shift-01)

- (a) 97 (b) 90
(c) 66 (d) 65

Exp.- The number used to represent the ASCII value of the uppercase letter ‘B’ is **66**. **Ans. (c)**

18. Which of the following operating system concepts is most directly involved in ensuring that multiple processes can access and modify files simultaneously without corrupting data?

RRB NTPC CBT-1, 19/06/2025 (Shift-01)

- (a) Virtual memory management
(b) Paging
(c) Scheduling algorithms
(d) File locking mechanisms

Exp.- **File locking** is an important operating system concept aimed at ensuring that multiple processes accessing or modifying the same file simultaneously can do so safely without causing data corruption. **Ans. (d)**

19. Using the standard ASCII code, how many unique characters can be represented?

RRB NTPC CBT-1, 05/06/2025 (Shift-03)

- (a) 64 (b) 128
(c) 256 (d) 512

Exp.- Using the standard ASCII code, **128 unique characters** can be represented. **Ans. (b)**

20. When applying a watermark to an MS Word document, which of the following settings provides the least control over the exact placement and size on each page?

RRB NTPC CBT-1, 13/06/2025 (Shift-03)

- (a) Inserting a custom picture watermark and adjusting its scale and washout settings.
(b) Inserting a custom text watermark through specific layout options.
(c) Using a predefined watermark template from the ‘Watermark’ gallery.
(d) Inserting a graphic as a header or footer and placing it behind the text.

Exp.- When applying a watermark in an MS Word document, a predefined watermark template from the gallery is used. **Ans. (c)**

21. Which of the following scheduling algorithms is most susceptible to the convoy effect, where a long-running process blocks shorter processes behind it?

RRB NTPC CBT-1, 13/06/2025 (Shift-03)

- (a) Round Robin
- (b) Shortest Job First (SJF)
- (c) Priority Scheduling (Non-preemptive)
- (d) First Come, First Served (FCFS)

Exp.- The First Come, First Served (FCFS) scheduling algorithm is most susceptible to the convoy effect.

Ans. (d)

22. Which of the following operating systems is most suitable for ethical hacking and cybersecurity tasks on laptops and desktops due to its pre-installed penetration testing tools?

RRB NTPC CBT-1, 19/06/2025 (Shift-01)

- (a) MacOS Ventura
- (b) Ubuntu LTS
- (c) Kali Linux
- (d) Windows 10

Exp.- Kali Linux is an advanced operating system, particularly suitable for ethical hacking and cybersecurity tasks on laptops and desktops, as it includes an extensive and powerful collection of pre-installed penetration testing tools.

Ans. (c)

23. Considering the fundamental operation of a computer, what is the immediate effect of pressing the Tab key in a command-line interface or terminal?

RRB NTPC CBT-1, 13/06/2025 (Shift-02)

- (a) It executes the currently typed command.
- (b) It deletes the last typed character.
- (c) It attempts to auto-complete the currently typed command or file name.
- (d) It switches to a different virtual terminal or console.

Exp.- The primary effect of pressing the Tab key in a command-line interface (CLI) or terminal is auto-completion.

Ans. (c)

24. Which element of the MS Excel interface displays the name of the currently active cell or the selected range of cells?

RRB NTPC CBT-1, 12/06/2025 (Shift-01)

- (a) The Name Box
- (b) The Status Bar
- (c) The Ribbon
- (d) The Formula Bar

Exp.- The Name Box is a part of the MS Excel interface that shows the address of the currently active cell (e.g., A1, B2).

Ans. (a)

25. A user wants to create a bulleted list in MS PowerPoint. After typing a list item and pressing Enter, they want to create a sub-bullet point (a lower-level bullet). Which of the following actions will reliably achieve this?

RRB NTPC CBT-1, 17/06/2025 (Shift-01)

- (a) Click the 'Decrease List Level' button in the Paragraph group.
- (b) Press Alt + Enter.
- (c) Click the 'Increase List Level' button in the Paragraph group.
- (d) Press Ctrl + Tab.

Exp.- To add a sub-bullet in a bulleted list in PowerPoint, the "Increase List Level" button is used.

Ans. (c)

26. If you want your audience not to see your notes in an MS PowerPoint 365 slide, which view should you use during the slideshow?

RRB NTPC CBT-1, 17/06/2025 (Shift-01)

- (a) Presenter View
- (b) Slide Show View
- (c) Outline View
- (d) Reading View

Exp.- To prevent your audience from seeing your notes in an MS PowerPoint 365 slide, you should use Presenter View during the slideshow.

Ans. (a)

27. Which of the following scenarios will cause a #REF! error in an MS Excel formula?

RRB NTPC CBT-1, 13/06/2025 (Shift-03)

- (a) Entering a formula that exceeds Excel's maximum allowed length.
- (b) Deleting a row or column that contains cells referenced by a formula in another worksheet.
- (c) Referencing a cell with a text value in a mathematical operation.
- (d) Attempting to divide a number by zero in a cell.

Exp.- In MS Excel, a #REF! error (Reference Error) occurs when a formula refers to a cell that no longer exists, such as when the cell has been deleted or its position has changed, making the formula's reference invalid.

Ans. (b)

28. Consider a scenario where a user is interacting with a virtual reality (VR) environment. Which of the following input devices is least likely to serve as the primary means of navigation and interaction within this immersive environment?

RRB NTPC CBT-1, 24/06/2025 (Shift-01)

- (a) Computer-connected optical mouse
- (b) Haptic gloves providing tactile feedback
- (c) Handheld controllers with position tracking
- (d) Head-mounted display with integrated motion tracking

Exp.- Virtual Reality (VR) is an immersive technology that interacts with a 3D virtual environment, whereas an optical mouse is designed for a 2D environment.

Ans. (a)

29. Which type of memory is also referred to as solid-state storage?

RRB NTPC CBT-1, 18/06/2025 (Shift-03)

- (a) Cache Memory
- (b) Flash Memory
- (c) Primary Memory
- (d) Crystal Storage

Exp.- Flash memory is also called solid-state storage because it uses electronic circuits to store data.

- Cache memory is a small but fast memory that works between the CPU (Central Processing Unit) and RAM (main memory).
- Primary memory is the computer's main memory, directly accessed by the CPU. It temporarily stores data and instructions while the computer is running.

Ans. (b)

30. In MS Word 2019, which of the following options is correct for quickly selecting an entire paragraph?

RRB NTPC CBT-1, 12/06/2025 (Shift-01)

- (a) Right-click and choose 'Paragraph' from the menu options.
- (b) Double-click anywhere in the paragraph.
- (c) Click on the paragraph while holding the Alt key.
- (d) Triple-click on any word in the paragraph.

Exp.- In MS Word 2019, mouse clicks are specially used to speed up text selection: a single click moves the cursor to that position, a double click selects an entire word, and a triple click selects an entire paragraph.

Ans. (d)

31. What is the significance of the 'root directory' in a hierarchical file system structure?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) It is the topmost directory in the file system hierarchy from which all other directories originate.
- (b) It is a special directory that contains essential operating system kernel files.
- (c) It is the directory where all user-specific files are stored.
- (d) It is a temporary directory used by the operating system to cache frequently accessed files.

Exp.- The root directory is the topmost directory of a hierarchical file system and serves as the starting point of the file system.

Ans. (a)

- 32.** What is the primary advantage of using a Directory Acyclic Graph (DAG) structure over a simple tree structure for a file system?

RRB NTPC CBT-1, 14/06/2025 (Shift-02)

- (a) DAGs allow faster traversal and searching of files.
- (b) DAGs reduce disk fragmentation and improve storage efficiency.
- (c) DAGs enable the creation of hard links, allowing multiple directory entries for the same file.
- (d) DAGs inherently provide better data security and access control.

Exp.- A Directory Acyclic Graph (DAG) structure for a file system provides more flexibility than a simple tree structure, especially when files are shared in multiple locations or when the same file needs to be referenced in different directories.

Ans. (c)

- 33.** In MS Excel, which type of cell reference automatically modifies both the column letter and row number when a formula is copied to another location?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) Absolute Reference
- (b) Mixed Reference
- (c) Relative Reference
- (d) Static Reference

Exp.- In MS Excel, a Relative Cell Reference automatically modifies both the column letter and row number when a formula is copied to another location.

Ans. (c)

- 34.** Which of the following best represents the concept of a 'stored-program computer' as proposed by the Von Neumann architecture?

RRB NTPC CBT-1, 23/06/2025 (Shift-02)

- (a) A computer that relies primarily on external storage devices for program execution.
- (b) A computer that uses separate memory units for data and instructions to optimize processing speed.
- (c) A computer that can execute only a fixed set of hard-wired instructions in its circuitry.
- (d) A computer in which data and instructions are stored in the same memory and executed sequentially.

Exp.- The concept of a 'stored-program computer' proposed by the Von Neumann architecture is that data and instructions are stored in the same memory, and the computer executes them sequentially.

Ans. (d)

- 35.** What is the wavelength and type of laser used in a standard CD-ROM drive?

RRB NTPC CBT-1, 09/06/2025 (Shift-01)

- (a) 650 nm; Red laser
- (b) 400 nm; Blue laser
- (c) 780 nm; Infrared laser
- (d) 850 nm; Near-infrared laser

Exp.- A standard CD-ROM drive uses an infrared diode laser with a wavelength of **780 nanometers (nm)**, which is used to read and write data on the CD-ROM disc.

Ans. (c)

- 36.** What is the full form of CMOS, which is commonly associated with storing system configuration?

RRB NTPC CBT-1, 09/06/2025 (Shift-01)

- (a) Complementary Metal-Oxide Semiconductor
- (b) Configurable Modular Operating Software
- (c) Central Memory Output System
- (d) Computerized Main Operating System

Exp.- The full form of CMOS is Complementary Metal-Oxide-Semiconductor.

- It is a semiconductor technology used mainly in microchips, processors, and CMOS battery memory (for BIOS settings). This technology provides low power consumption and higher speed.

Ans. (a)

- 37.** In the context of computer hardware components, what is the primary function of ROM?

RRB NTPC CBT-1, 21/06/2025 (Shift-01)

- (a) It physically supports all internal hardware modules.
- (b) It stores temporary data used during system processing.
- (c) It executes programs and handles arithmetic operations.
- (d) It contains the firmware necessary to boot the system.

Exp.- The primary function of ROM (Read-Only Memory) is to store the **firmware required to boot the computer.**

Ans. (d)

- 38.** When a new text document is created in MS-Office 2016, the default text size of the document is _____.

RRB NTPC CBT-1, 21/06-2025 (Shift-01)

- (a) 10 points
- (b) 14 points
- (c) 12 points
- (d) 11 points

Exp.- In Microsoft Word 2016, when a new text document is created, the default text size is **11 points.**

Ans. (d)

- 39.** In MS-POWERPOINT, where can you find the 'From Beginning' and 'From Current Slide' options to run a slide show?

RRB NTPC CBT-1, 21/06/2025 (Shift-01)

- (a) Home tab
- (b) Slide Show tab
- (c) Slide Sorter tab
- (d) View tab

Exp.- In MS PowerPoint, the 'From Beginning' and 'From Current Slide' options to start a slide show are located in the **Slide Show tab.**

Ans. (b)

- 40.** In Windows 11, the 'Access is denied' error occurs while trying to rename a file because the file's ownership has changed.

RRB NTPC CBT-1, 23/06/2025 (Shift-01)

- (a) Due to using the wrong drive letter.
- (b) Due to renaming from the Recycle Bin.
- (c) Due to change of file ownership.
- (d) Due to the file having no extension.

Exp.- In Windows, every file and folder has ownership and associated permissions. **If a file's ownership has changed** or you do not have the necessary permissions to modify it, Windows will show an 'Access is denied' error.

Ans. (c)

- 41.** In a modern motherboard, which component is directly connected to the CPU to enable high-speed communication?

RRB NTPC CBT-1, 14/06/2025 (Shift-01)

- (a) PCB
- (b) GPU
- (c) ROM
- (d) Northbridge

Exp.- In modern computer architecture, the **Northbridge** is a chipset component that connects directly to the CPU and enables high-speed communication.

Ans. (d)

- 42.** In MS Word 365, the shortcut to remove manual character formatting from selected text is Ctrl + Spacebar.

RRB NTPC CBT-1, 09/06/2025 (Shift-03)

- (a) Ctrl + Z
- (b) Ctrl + Spacebar
- (c) Ctrl + B
- (d) Ctrl + Shift + N

Exp.- In MS Word 365, to remove manual character formatting from selected text, **Ctrl + Spacebar** shortcut is used.

Ans. (b)

43. In PowerPoint 2019, which keyboard shortcut is used to insert a new slide?

RRB NTPC CBT-1, 14/06/2025 (Shift-02)

- (a) Ctrl + N (b) Ctrl + K
(c) Ctrl + D (d) Ctrl + M

Exp.- In PowerPoint 2019, the **Ctrl + M** keyboard shortcut is used to insert a new slide.

- **Ctrl + K** – to insert or edit a hyperlink.
- **Ctrl + D** – in Microsoft Word, Microsoft Word, opens the Font dialog box; in Microsoft Excel, copies the content of the cell above into the selected cell below.

Ans. (d)

44. In MS Word 365, the keyboard shortcut to remove paragraph indentation is Ctrl + Shift + M.

RRB NTPC CBT-1, 09/06/2025 (Shift-03)

- (a) Ctrl + Shift + M
(b) Ctrl + Tab
(c) Ctrl + Shift + I
(d) Ctrl + M

Exp.- In MS Word 365, **Ctrl + Shift + M** keyboard shortcut is used to remove paragraph indentation.

Ans. (a)

45. In the Linux GNOME desktop environment, Alt + F2 opens the Run Command dialog box.

RRB NTPC CBT-1, 05/06/2025 (Shift-02)

- (a) Refresh the current window.
(b) Open the Run Command dialog box.
(c) Close the current application.
(d) Toggle between full-screen and windowed mode.

Exp.- In the Linux GNOME desktop environment, the **Alt + F2** shortcut opens the Run Command dialog box.

Ans. (b)

46. Which of the following input devices primarily converts physical, real-world actions into digital signals that can be interpreted by a computer system for tasks such as navigation and object manipulation in a graphical environment?

RRB NTPC CBT-1, 20/06/2025 (Shift-02)

- (a) Mouse (b) Microphone
(c) Scanner (d) Keyboard

Exp.- A **mouse** is an input device that primarily converts physical, real-world actions into digital signals, which the computer system interprets for tasks such as navigation and object manipulation in a graphical environment.

Ans. (a)

47. In Microsoft PowerPoint, to reorganize slides and get an overview of the entire presentation structure, the most suitable view is Slide Sorter View.

RRB NTPC CBT-1, 24/06/2025 (Shift-02)

- (a) Slide Show View
(b) Normal View
(c) Reading View
(d) Slide Sorter View

Exp.- In Microsoft PowerPoint, **Slide Sorter View** is most suitable for reorganizing slides and getting an overall view of the entire presentation structure.

Ans. (d)

48. Which of the following keyboard shortcuts opens File Explorer in Windows 11 to navigate and create files/folders?

RRB NTPC CBT-1, 12/06/2025 (Shift-01)

- (a) Windows Key + E
(b) Ctrl + E
(c) Ctrl + Shift + N
(d) Alt + Tab

Exp.- In Windows 11 operating system, the **Windows Key + E** keyboard shortcut is used to open File Explorer.

Ans. (a)

49. Which of the following elements, if poorly executed, would most likely undermine the credibility and impact of a well-researched MS PowerPoint presentation?

- (a) Including speaker notes for reference.
(b) Inconsistent use of slide masters and templates.
(c) Choice of transition effects between slides.
(d) Embedding multimedia elements like videos.

Exp.- If **slide masters and templates** are used **inconsistently or haphazardly**, it can significantly undermine the credibility, visual impact, and overall effect on the audience of a well-researched MS PowerPoint presentation.

Ans. (b)

50. Which of the following MS PowerPoint features allows recording for each slide and automatically replaying any narration or laser pointer movements during the slideshow?

RRB NTPC CBT-1, 21/06/2025 (Shift-02)

- (a) Presenter View
(b) Rehearse Timings
(c) Record Slide Show
(d) Set Up Slide Show

Exp.- "**Record Slide Show**" is a feature in PowerPoint that turns your presentation into an interactive and auto-play version.

Ans. (c)

51. In the context of a Local Area Network (LAN), what is the primary purpose of a MAC (Media Access Control) address?

RRB NTPC CBT-1, 17/06/2025 (Shift-02)

- (a) To uniquely identify the Network Interface Controller (NIC) at the data link layer.
(b) To uniquely identify the Network Interface Controller (NIC) at the data link layer.
(c) To uniquely identify the Network Interface Controller (NIC) at the data link layer.
(d) To uniquely identify the Network Interface Controller (NIC) at the data link layer.

Exp.- In the context of a Local Area Network (LAN), the primary purpose of a Media Access Control (MAC) address is to **uniquely identify the Network Interface Controller (NIC) at the data link layer**.

Ans. (a)

52. In MS PowerPoint 365, which keyboard shortcut is used to start text editing inside a selected shape or text box?

RRB NTPC CBT-1, 17/06/2025 (Shift-02)

- (a) F2 (b) Alt + Enter
(c) Ctrl + E (d) F5

Exp.- In MS PowerPoint 365, the **F2** shortcut is used to start text editing inside a selected shape or text box.

Ans. (a)

53. What is the primary advantage of using a Virtual File System (VFS) layer within an operating system?

RRB NTPC CBT-1, 14/06/2025 (Shift-02)

- (a) To directly manage physical storage devices.
(b) To handle low-level details of file storage and retrieval for a single file system.
(c) To provide applications with a consistent interface to access different file systems.
(d) To optimize disk access speed for specific types of file systems.

Exp.- The primary advantage of the Virtual File System (VFS) layer within an operating system is that it provides applications with a consistent and standardized interface to access different types of file systems.

Ans. (c)

54. What is the primary purpose of virtual memory in a computer system?

RRB NTPC CBT-1, 05/06/2025 (Shift-02)

- (a) To extend RAM capacity using disk space.
(b) To expand cache memory for storage.
(c) To increase physical storage capacity.
(d) To provide backup of data.

Exp.- The primary purpose of virtual memory in a computer system is to extend RAM capacity using disk space.

Ans. (a)

55. Which of the following options in PowerPoint allows viewing all slides together as thumbnails?

RRB NTPC CBT-1, 26/06/2025 (Shift-01)

- (a) Reading View
(b) Slide Sorter View
(c) Slide Show View
(d) Outline View

Exp.- In PowerPoint, **Slide Sorter View** allows viewing all slides together as thumbnails.

Ans. (b)

- 56.** In MS Word, which feature allows users to set the document's margins, affecting the space between the text and the page edges?

RRB NTPC CBT-1, 09/06/2025 (Shift-01)

- (a) Page Size (b) Page Border
(c) Page Layout (d) Margins

Exp.- In MS Word, under the Page Layout tab, the **Margins feature** allows setting the document's margins. **Ans. (d)**

- 57.** Which key can be pressed to start a slideshow in MS PowerPoint?

RRB NTPC CBT-1, 26/06/2025 (Shift-02)

- (a) Function key F4
(b) Function key F2
(c) Function key F8
(d) Function key F5

Exp.- In Microsoft PowerPoint, the **F5** key can be pressed to start the slideshow. **Ans. (d)**

- 58.** In which of the following scenarios is the 'Keep with Next' paragraph formatting option in MS Word most effectively required?

RRB NTPC CBT-1, 26/06/2025 (Shift-01)

- (a) To automatically indent the first line of each paragraph in the document.
(b) To prevent a long paragraph from splitting across multiple pages.
(c) To apply a consistent bullet point style in a list of items.
(d) To ensure that a heading and the paragraph immediately following it always appear on the same page.

Exp.- In MS Word, the 'Keep with Next' paragraph formatting option is used to **ensure that a particular paragraph (such as a heading) always stays on the same page** with the paragraph that follows it, preventing a page break between them. **Ans. (d)**

- 59.** In MS Excel 365, what can you control by setting a Page Break?

RRB NTPC CBT-1, 11/06/2025 (Shift-01)

- (a) The maximum size of printable margins.
(b) Where the worksheet will be split across printed pages.
(c) Where formulas will be recalculated before printing.
(d) Where the header will appear on each page.

Exp.- In MS Excel 365, setting a Page Break allows you to divide the **worksheet into separate pages**, controlling how the data is split during printing. **Ans. (b)**

- 60.** In MS Word 365, which feature allows users to customize the appearance of bulleted lists by selecting different bullet styles or symbols and modifying their size and color?

RRB NTPC CBT-1, 12/06/2025 (Shift-01)

- (a) Format Painter (b) List Style
(c) Line Spacing (d) Bullet Library

Exp.- The **Bullet Library** feature in MS Word 365 provides full functionality to customize bulleted lists, allowing the bullet's design, color, size, or symbol to be changed as needed. **Ans. (d)**

- 61.** What is the main advantage of saving an MS PowerPoint presentation as a PDF file?

RRB NTPC CBT-1, 13/06/2025 (Shift-01)

- (a) It runs all MS PowerPoint animations.
(b) It enables users to edit slides in any PDF viewer.
(c) It automatically translates text into different languages.
(d) It automatically translates text into different languages.

Exp.- The main advantage of saving an MS PowerPoint presentation as a PDF is that it **reduces the file size and secures the content**, preventing unnecessary editing. **Ans. (d)**

- 62.** In the context of a file system, what is the primary purpose of file system 'metadata'?

RRB NTPC CBT-1, 09/06/2025 (Shift-02)

- (a) To record information about files and directories.
(b) To optimize the physical storage of file data on the storage device for faster access.
(c) To define a graphical representation of files and folders for the user.
(d) To store the actual content and data of files.

Exp.- The main purpose of metadata in a file system is to **store information about files and directories (folders)**. **Ans. (a)**

- 63.** What happens when you press 'Ctrl + M' in MS PowerPoint 365?

RRB NTPC CBT-1, 23/06/2025 (Shift-03)

- (a) A new blank slide is inserted, ignoring the previous layout.
(b) A new slide with the same layout as the previous slide is inserted.
(c) Slide Master View opens.
(d) A duplicate of the current slide is created.

Exp.- Ctrl + M is used to add a new slide in an MS PowerPoint presentation. **Ans. (b)**

- 64.** What is the correct way to add a new slide in an MS PowerPoint 2019 presentation?

RRB NTPC CBT-1, 10/06/2025 (Shift-03)

- (a) Press Ctrl + N
(b) Right-click on the slide – select Copy
(c) Go to the Home tab – click on New Slide
(d) Press Alt + F4

Exp.- The correct way to add a new slide during a presentation in MS PowerPoint 2019 is:

- Go to the Home tab, click the New Slide button in the Slides group, and then you can start adding content to your new slide. **Ans. (c)**

- 65.** What is the significance of pipelining in CPU architecture?

RRB NTPC CBT-1, 17/06/2025 (Shift-03)

- (a) Transfers data between registers.
(b) Increases clock speed using multiple cores.
(c) Executes multiple instructions simultaneously through overlapping stages.
(d) Stores instructions in memory.

Exp.- In CPU architecture, pipelining is a technique that breaks instructions into smaller stages, allowing multiple instructions to be executed simultaneously, thereby improving processor efficiency and performance. **Ans. (c)**

- 66.** What happens if you delete a file from a USB flash drive in Windows OS?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) It gets compressed, saving space
(b) It is immediately deleted permanently
(c) It becomes a hidden file
(d) It goes to the Recycle Bin.

Exp.- In the Windows operating system, when files are deleted from a USB flash drive or other removable storage device, they are permanently deleted and do not go to the Recycle Bin. **Ans. (b)**

- 67.** Which of the following methods is the fastest way to open an existing MS Excel spreadsheet?

RRB NTPC CBT-1, 09/06/2025 (Shift-02)

- (a) Open MS Excel and click on a blank workbook
(b) Press Ctrl + N
(c) Use the Alt + F4 shortcut
(d) Double-click the .xlsx file in File Explorer.

Exp.- The fastest and most direct way to open an MS Excel spreadsheet is to **double-click the Excel (.xlsx) file in File Explorer**. **Ans. (d)**

68. If you paste text in MS PowerPoint 2019 using the Keep Source Formatting option, what happens?

RRB NTPC CBT-1, 10/06/2025 (Shift-01)

- (a) The text formatting remains the same as the original source formatting.
- (b) The text size automatically adjusts to fit the slide.
- (c) The text is converted into an image.
- (d) The text adopts the theme font color of the destination slide.

Exp.- In MS PowerPoint 2019, when text is pasted using the “Keep Source Formatting” option, it is pasted with exactly the same formatting as it had in its original (source) file. **Ans. (a)**

69. What happens when an MS PowerPoint presentation created in a newer version (e.g., MS PowerPoint 2021) is opened in an older version (e.g., MS PowerPoint 2010)?

RRB NTPC CBT-1, 05/06/2025 (Shift-02)

- (a) MS PowerPoint will display an error and refuse to open the file.
- (b) The file will open normally with all features intact.
- (c) The file will automatically convert to PDF.
- (d) The file will open in compatibility mode with limited features.

Exp.- When you open a presentation file created in a newer version like MS PowerPoint 2021 in an older version like PowerPoint 2010, PowerPoint opens it in “Compatibility Mode” so that the file can run in the older version, but some new features will not work. **Ans. (d)**

70. Which of the following acronyms represents a volatile memory technology commonly used as primary working memory in personal computers?

RRB NTPC CBT-1, 17/06/2025 (Shift-03)

- (a) CMOS
- (b) DRAM
- (c) NVMe
- (d) SRAM

Exp.- DRAM (Dynamic Random Access Memory) is a type of volatile memory used as the main working memory (RAM) in personal computers. **Ans. (b)**

71. What is the main difference between a ‘cold boot’ and a ‘warm boot’ in a computer system?

RRB NTPC CBT-1, 05/06/2025 (Shift-03)

- (a) A cold boot restarts the operating system from a powered-off state, while a warm boot restarts it from a running state.
- (b) A cold boot reloads only the kernel, while a warm boot restarts all hardware components.
- (c) A cold boot is initiated by the user, while a warm boot is initiated by the operating system due to an error.
- (d) A cold boot preserves the current state of applications, while a warm boot closes them.

Exp.- A cold boot, also called a hard boot, is the process of turning on a computer after it has been completely powered off. It begins with the BIOS and POST (Power-On Self-Test) checks that occur when the power is switched on.

- A warm boot, also called a soft boot, is a process in which the computer is restarted without being completely powered off. **Ans. (a)**

72. Which of the following statements is correct?

RRB NTPC CBT-1, 09/06/2025 (Shift-03)

- (a) LAN supports networking over large geographical areas.
- (b) CD is a volatile storage medium.
- (c) ASCII is mainly used for high-speed data transmission networks.
- (d) ASCII represents characters as numerical codes.

Exp.- ASCII (American Standard Code for Information Interchange) is a character encoding that represents characters as numerical codes. **Ans. (d)**

73. In MS Word 365, which feature allows users to control vertical space between paragraphs and improve document readability by setting specific spacing before and after paragraphs?

RRB NTPC CBT-1, 16/06/2025 (Shift-01)

- (a) Indentation
- (b) Line Spacing
- (c) Paragraph Spacing
- (d) Page Layout

Exp.- Paragraph Spacing is the feature that allows you to determine how much space should appear before and after a paragraph. It helps improve the readability of the document. **Ans. (c)**

74. In Windows 11 OS, what is the simplest way to sort files by name in File Explorer?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) Click on the Name column header in File Explorer.
- (b) Use the Ctrl + S shortcut.
- (c) Right-click → Select Group by Name.
- (d) Manually drag files in alphabetical order.

Exp.- The simplest way to sort files by name in File Explorer in Windows 11 OS is to click on the “Name” header; the files are automatically sorted alphabetically (A–Z or Z–A). **Ans. (a)**

75. Which feature of MS Word 2019 allows creating a multilevel numbered list (e.g., 1.1, 1.2)?

RRB NTPC CBT-1, 18/06/2025 (Shift-03)

- (a) Increase Indent button
- (b) Change Styles option
- (c) New Multilevel List
- (d) Format Painter

Exp.- The New Multilevel List is a feature that allows users to create a numbered list with multiple levels within the same list, such as 1, 1.1, 1.1.1, etc. This feature is especially useful for structured documents like reports, projects, or technical documents. **Ans. (c)**

76. Which of the following statements best explains that removing all desktop icons does not affect the functionality of applications in Windows OS?

RRB NTPC CBT-1, 21/06/2025 (Shift-03)

- (a) Desktop icons are only visual shortcuts; they are not the actual application files.
- (b) Desktop icons are critical system files required to run applications.
- (c) The desktop is a virtual memory area where applications run in the background.
- (d) Windows OS duplicates all application files in the desktop directory.

Exp.- Desktop icons are only visual shortcuts because the icons on the desktop are just shortcuts to access applications or files, and deleting these icons does not affect the original application or its functionality. **Ans. (a)**

77. Which of the following characters is not allowed in a file name when renaming in Windows?

RRB NTPC CBT-1, 06/06/2025 (Shift-01)

- (a) # (hash)
- (b) ? (question mark)
- (c) – (hyphen)
- (d) _ (underscore)

Exp.- In the Windows operating system, certain special characters are not allowed when renaming a file or folder, such as ;, “, /, ?, \, *, and |; these characters are system-reserved. **Ans. (b)**

78. Which method of finding and replacing text in Microsoft Word is not correct?

RRB NTPC CBT-1, 06/06/2025 (Shift-01)

- (a) Press Alt + Enter.
- (b) Go to the ‘Home’ tab and select ‘Replace’.
- (c) Press Ctrl + H to open the Find and Replace window.
- (d) Click ‘Edit’ and then select ‘Find and Replace’.

Exp.- Pressing **Alt + Enter** is not a shortcut for Find and Replace in Microsoft Word. It is used in Excel to create a new line within a cell, not for find-and-replace in Word.

- It is used in Excel to create a new line within a cell, not for find-and-replace in Word. **Ans. (a)**

79. What is the full form of PCB in electrical circuits?

RRB NTPC CBT-1, 18/06/2025 (Shift-03)

- (a) Peripheral Circuit Bridge
- (b) Printed Circuit Board
- (c) Process Control Board
- (d) Programmed Control Base

Exp.- PCB (Printed Circuit Board) is a thin, flat board on which electronic components such as resistors, capacitors, transistors, etc., are connected through copper tracks. It is used in almost all electronic devices like mobile phones, computers, TVs, radios, etc. **Ans. (b)**

80. What happens when you apply a template to an existing MS PowerPoint presentation?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) It applies a new design while retaining the existing slide content.
- (b) It completely changes all slides and content.
- (c) It changes only the background without affecting text formatting.
- (d) It converts the PowerPoint presentation to read-only format.

Exp.- When you apply a template to an existing MS PowerPoint presentation, it applies a new design (theme, colors, fonts, etc.) while retaining the content of the existing slides. **Ans. (a)**

81. In computer terminology, regarding ASCII, LAN, and CD, which of the following statements is true?

RRB NTPC CBT-1, 19/06/2025 (Shift-02)

- (a) ASCII is used to format disks in a LAN network.
- (b) CD is a rewritable magnetic storage medium.
- (c) ASCII represents characters using numeric codes in binary.
- (d) LAN refers to a wide-area network like the Internet.

Exp.- ASCII (American Standard Code for Information Interchange) is the most common character encoding format for text data on computers and the Internet, representing letters (A-Z), numbers (0-9), and special symbols (!, @, #, etc.) using binary numeric codes. **Ans. (c)**

82. Which feature in MS Excel ensures that only a specified part of the spreadsheet is printed?

RRB NTPC CBT-1, 17/02/2025 (Shift-02)

- (a) Page Orientation
- (b) Margin Settings
- (c) Page Break Preview
- (d) Print Area

Exp.- In MS Excel, using the Print Area feature, you can print only a specific part of a worksheet, preventing unwanted parts from being printed. **Ans. (d)**

83. Which of the following is an example of an open-source desktop operating system?

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) Android
- (b) Windows 11
- (c) Mac OS
- (d) Linux Ubuntu

Exp.- Linux Ubuntu is an open-source desktop operating system. **Ans. (d)**

84. In Windows XP, which component provides users with a graphical interface to open and access software programs and applications?

RRB NTPC CBT-1, 12/06/2025 (Shift-02)

- (a) Task Manager
- (b) Control Panel
- (c) Start Menu
- (d) File Explorer

Exp.- In Windows XP, the Start Menu is the main graphical user interface (GUI) that allows users to open and access various software programs, applications, system tools, and settings. **Ans. (c)**

85. What is the primary function of Alt+Tab in most modern operating systems?

RRB NTPC CBT-1, 09/06/2025 (Shift-01)

- (a) Switch between open applications.
- (b) Open the Task Manager directly.
- (c) Open a new tab in the current application.
- (d) Minimize the active window.

Exp.- The Alt + Tab shortcut is used in most modern operating systems (like Windows) to switch from one open application to another and is also called the "Task Switcher." **Ans. (a)**

86. Which feature of the CPU determines how many instructions it can process per second?

RRB NTPC CBT-1, 17/06/2025 (Shift-01)

- (a) Clock speed
- (b) Power consumption
- (c) Number of registers
- (d) Cache size

Exp.- Clock speed measures the speed of the CPU (Central Processing Unit), determining how many instructions can be processed in one second, and it is measured in gigahertz (GHz). **Ans. (a)**

87. Which feature of the CPU determines how many instructions it can process per second?

RRB NTPC CBT-1, 17/06/2025 (Shift-01)

- (a) Clock speed
- (b) Cache size
- (c) Number of registers
- (d) Power consumption

Exp.- Refer to the Q. No. 86. **Ans. (a)**

88. Which of the following statements about Printed Circuit Boards (PCBs) is incorrect?

RRB NTPC CBT-1, 19/06/2025 (Shift-02)

- (a) PCBs serve only desktop computers, not portable devices.
- (b) PCBs provide a base to support and organize hardware components.
- (c) PCBs hold and connect electronic components using conductive tracks.
- (d) Complex devices can use multilayer PCBs to fit more circuitry.

Exp.- PCBs (Printed Circuit Boards) are used not only in desktop computers but in almost all electronic devices, such as laptops, smartphones, tablets, TVs, cameras, etc. **Ans. (a)**

89. What is the primary purpose of the .ppsx file format in MS PowerPoint 365?

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) To compress the presentation file size.
- (b) To save the presentation in read-only format.
- (c) To save the presentation as a template for future use.
- (d) To save the presentation in a format that opens directly in Slide Show mode.

Exp.- The primary purpose of the MS PowerPoint 365 file format is to save the presentation so that it opens directly in Slide Show mode on double-click, rather than in editing mode (like .pptx). **Ans. (d)**

90. On the Home screen of MS PowerPoint 2019, when the Start Screen is enabled, which option or section should be clicked to start a new blank presentation?

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) Design tab from the ribbon
- (b) Recent tab in the left sidebar
- (c) Open button at the bottom left corner
- (d) Tile labeled 'Blank Presentation' on the right panel

Exp.- When the Start Screen in MS PowerPoint 2019 is enabled, several tiles appear on the first screen, such as:

- Blank Presentation, Templates, Recent Presentations.
- To start a new presentation, click on the "Blank Presentation" tile on the right panel. **Ans. (d)**

91. What is the primary purpose of ASCII (American Standard Code for Information Interchange)?

RRB NTPC CBT-1, 06/06/2025 (Shift-01)

- (a) To design graphical user interfaces for operating systems
- (b) To create programming languages for text-based applications
- (c) To define a standardized set of codes for representing text and control characters
- (d) To enable secure encryption of data for internet transmission

Exp.- ASCII is a standardized coding scheme used to represent text characters (such as A-Z, a-z, 0-9, symbols, etc.) as numeric values in computers and other devices. **Ans. (c)**

92. Which keyboard shortcut permanently deletes a file in Windows OS without sending it to the Recycle Bin?

RRB NTPC CBT-1, 06/06/2025 (Shift-03)

- (a) Shift + Delete
- (b) Ctrl + D
- (c) Alt + Delete
- (d) Delete

Exp.- In Windows OS:

- When you press Delete to remove a file, it goes to the Recycle Bin.
- When you press **Shift + Delete**, the file bypasses the Recycle Bin and is permanently deleted. **Ans. (a)**

93. On the Windows 11 desktop, the Task View element allows users to quickly access multiple open windows and virtual desktops.

RRB NTPC CBT-1, 13/06/2025 (Shift-01)

- (a) File Explorer
- (b) Control Panel
- (c) Start Menu
- (d) Task View

Exp.- Task View in Windows 11 is a feature that allows users to view all open windows together, switch between them easily, and create and manage virtual desktops. **Ans. (d)**

94. Which Windows OS tool is used to change the system date and time?

RRB NTPC CBT-1, 10/06/2025 (Shift-01)

- (a) File Explorer
- (b) Control Panel
- (c) Device Manager
- (d) Task Manager

Exp.- In Windows operating system, the **Control Panel** is primarily used to change the system date and time. **Ans. (b)**

95. The statement that is incorrect about cache memory is: Cache memory is a form of secondary storage.

RRB NTPC CBT-1, 17/06/2025 (Shift-01)

- (a) Cache memory is faster than main memory.
- (b) Cache memory stores frequently accessed data for quick retrieval.
- (c) Cache memory is a form of secondary storage.
- (d) Cache memory is located near or inside the CPU.

Exp.- Cache memory is a very fast and small memory, and its main function is to store frequently used data to increase the CPU's processing speed. **Ans. (c)**

96. In MS Word, the 'Section Break (Next Page)' ends the current section and starts a new section on the next page.

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) It starts a new paragraph while maintaining the same formatting.
- (b) It creates a visual divider between different parts of the document on the same page.
- (c) It inserts a manual line break within the same paragraph.
- (d) It ends the current section and starts a new section on the next page.

Exp.- In MS Word, the 'Section Break (Next Page)' is used to **end the current section and start the next content as a new section on a new page**.

- This new section can independently have its own header-footer, margins, page orientation, columns, and other settings. **Ans. (d)**

97. In the newer versions of MS Excel (like Excel 2019), the default file format for saving a workbook is .xlsx.

RRB NTPC CBT-1, 16/06/2025 (Shift-03)

- (a) .xlsx
- (b) .csv
- (c) .xls
- (d) .pdf

Exp.- .xlsx – In newer versions of MS Excel like Excel 2019, Excel 365, etc., it is the default file format for saving a workbook. **Ans. (a)**

98. Which feature in Windows allows you to create shortcuts for frequently used folders for easy access?

RRB NTPC CBT-1, 09/06/2025 (Shift-01)

- (a) Library
- (b) Taskbar
- (c) File Explorer
- (d) Quick Access

Exp.- Windows **Quick Access** feature provides users with quick access to frequently used folders and files. **Ans. (d)**

99. What is the purpose of the 'AutoFill' feature in MS Excel 365?

RRB NTPC CBT-1, 20/06/2025 (Shift-03)

- (a) Automatically sum a range of values
- (b) Copy cell content or continue a pattern
- (c) Validate cell data
- (d) Split text into multiple cells

Exp.- The purpose of the 'AutoFill' feature in MS Excel 365 is to **copy the content or pattern of a cell** and automatically fill sequences of numbers, dates, or other data. **Ans. (b)**

100. When you reuse a slide from another presentation in MS PowerPoint 365, which of the following options ensures that the imported slide retains its original formatting?

RRB NTPC CBT-1, 23/06/2025 (Shift-01)

- (a) Click on 'Keep Source Formatting' in the Reuse Slides pane
- (b) Import them as images to keep the slide's look the same
- (c) Apply the destination theme after inserting
- (d) Copy and paste the slide

Exp.- In MS PowerPoint 365, when slides are imported from another presentation, by default they adopt the theme of the existing presentation. **Ans. (a)**

101. How can the margins of a document be changed in MS Word?

RRB NTPC CBT-1, 21/06/2025 (Shift-01)

- (a) Layout tab → Margins
- (b) Design tab → Margins
- (c) Review tab → Margins
- (d) Insert tab → Margins

Exp.- In MS Word, to change **margins**, go to the **Layout** tab. **Ans. (a)**

102. In MS PowerPoint 2019, which feature allows you to reuse slides from another presentation without manually copying the content?

RRB NTPC CBT-1, 13/06/2025 (Shift-03)

- (a) Slide Master
- (b) Animation Painter
- (c) Reuse Slides
- (d) Format Painter

Exp.- In MS PowerPoint 2019, the **"Reuse Slides"** feature allows you to easily add slides from another PowerPoint presentation into your current presentation. **Ans. (c)**

103. When navigating through options in a dialog box or menu using the keyboard, the primary function of the Tab key is to move the focus to the next available option or control.

RRB NTPC CBT-1, 05/06/2025 (Shift-01)

- (a) Go back to the previous option or control
- (b) Select the currently highlighted option
- (c) Close the current dialog box or menu
- (d) Move focus to the next available option or control

Exp.- When navigating through options in a dialog box or menu using the keyboard, the primary function of the Tab key is to move the focus to the next available option or control. **Ans. (d)**

104. When you press F5 in MS PowerPoint 2019, the slide show starts from the beginning.

RRB NTPC CBT-1, 18/06/2025 (Shift-02)

- (a) A new slide gets inserted.
- (b) The 'Print' dialog box opens.
- (c) The presentation gets saved.
- (d) The slide show starts from the beginning.

Exp.- In MS PowerPoint 2019, pressing the **F5** key starts the slide show mode.

Ans. (d)

105. In most legacy and standard Windows applications, which key combination is primarily used to access the File menu?

RRB NTPC CBT-1, 18/06/2025 (Shift-02)

- (a) Alt + Insert (b) Alt + F
- (c) Alt + Delete (d) Alt + Tab

Exp.- In most Windows legacy and standard applications, the **Alt + F** key combination is used to open the File menu. **Ans. (b)**

106. Pressing Alt + Tab on a computer keyboard is used to switch between open applications.

RRB NTPC CBT-1, 06/06/2025 (Shift-02)

- (a) Open Task Manager
- (b) Minimize all windows
- (c) Switch between open applications
- (d) Shut down the system

Exp.- Alt + Tab is used in the Windows operating system to **switch between open applications or windows**. **Ans. (c)**

107. Which output device is specifically designed to produce high-quality printed graphics and text?

RRB NTPC CBT-1, 11/06/2025 (Shift-02)

- (a) Projector
- (b) Inkjet Printer
- (c) Dot Matrix Printer
- (d) Joystick

Exp.- An **inkjet printer** is a computer peripheral that prints text and photos on paper using ink.

- It is specifically designed to produce high-quality printed graphics and text. **Ans. (b)**

108. When working with bullets or numbered lists in MS Word 365, pressing 'Enter' creates a new list item with the same bullet or number.

RRB NTPC CBT-1, 21/06/2025 (Shift-02)

- (a) It automatically restarts the numbering.
- (b) It creates a new list item with the same bullet or number.
- (c) It deletes the previous bullet or number.
- (d) It converts the list into plain text.

Exp.- In MS Word 365, pressing 'Enter' in a bullet or numbered list automatically creates a new item with the same bullet or number style. **Ans. (b)**

109. In MS PowerPoint 365, which shortcut key combination is used to insert a hyperlink?

RRB NTPC CBT-1, 16/06/2025 (Shift-01)

- (a) Ctrl + K
- (b) Alt + X
- (c) Ctrl + Shift + X
- (d) Ctrl + N

Exp.- **Ctrl + K** is used to insert a hyperlink in Office applications like Word and Excel. **Ans. (a)**

110. In MS PowerPoint 2019, to access the 'Open' option to load a saved PowerPoint file, which tab should be selected first?

RRB NTPC CBT-1, 09/06/2025 (Shift-02)

- (a) Design Tab (b) Home Tab
- (c) File Tab (d) Insert Tab

Exp.- In MS PowerPoint 2019, to open a previously saved presentation file, first click on the **"File"** tab in the Ribbon.

Ans. (c)

111. In multi-tab applications (like browsers or MS Word), Ctrl + Tab switches to the next tab.

RRB NTPC CBT-1, 13/06/2025 (Shift-02)

- (a) Opens a new tab
- (b) Switches to the next tab
- (c) Refreshes the tab
- (d) Closes the current tab

Exp.- The Ctrl + Tab shortcut is used in multi-tab applications (such as web browsers, MS Word, Excel, Adobe Reader, etc.). **Ans. (b)**

112. Which of the following is the correct way to start a new blank presentation in MS PowerPoint?

RRB NTPC CBT-1, 13/06/2025 (Shift-02)

- (a) Press Ctrl + O
- (b) Press Ctrl + N
- (c) Click File → Open
- (d) Click Insert → New Slide

Exp.- The **Ctrl + N** shortcut is used to start a new blank presentation.

- Click File → Open to open a previously saved file (workbook). **Ans. (b)**

113. In MS PowerPoint 2016 or later versions, the following sequence of steps best starts a blank presentation.

RRB NTPC CBT-1, 18/06/2025 (Shift-02)

- (a) Home Layout Clear All
- (b) View → New Window Blank
- (c) File → Save As → Blank Template
- (d) File → New → Blank Presentation

Exp.- In MS PowerPoint 2016 or later versions, to start a blank presentation, **click File → New → Blank Presentation**. **Ans. (d)**

114. What is the correct way to print a spreadsheet in MS Excel?

RRB NTPC CBT-1, 19/06/2025 (Shift-02)

- (a) Press Ctrl + S
- (b) Press Ctrl + P
- (c) Click on the 'Home' tab and select 'Print'
- (d) Click on the 'File' tab and select 'Print'

Exp.- The correct way to print a spreadsheet in MS Excel is by **clicking on the 'File' tab and selecting 'Print'**. **Ans. (d)**

115. The primary purpose of the 'Formula Bar' in MS Excel is to display and edit the content of a cell.

RRB NTPC CBT-1, 18/06/2025 (Shift-02)

- (a) Change the background color of the cell
- (b) Display and edit the content of the cell
- (c) Insert charts and images
- (d) Navigate between worksheets

Exp.- In MS Excel, the Formula Bar is the area that displays the data or formula of the currently selected cell and allows the user to edit it. **Ans. (b)**

116. Which shortcut keys can be used to quickly open a presentation in PowerPoint?

RRB NTPC CBT-1, 09/06/2025 (Shift-03)

- (a) Shift + O (b) Tab + O
- (c) Ctrl + O (d) Alt + O

Exp.- In MS PowerPoint, Word, and Excel, the Ctrl + O shortcut is used to open a saved presentation. **Ans. (c)**

117. In MS Word 2019, the purpose of the Find and Replace feature (Ctrl + H) is to search for specific text and replace it with other text.

RRB NTPC CBT-1, 13/06/2025 (Shift-03)

- (a) Insert a hyperlink
- (b) Search for specific text and replace it with other text
- (c) Adjust paragraph spacing
- (d) Change the font of the selected text

Exp.- In MS Word 2019, the Ctrl + H shortcut is used to open the “Find and Replace” window. It is used to replace the same words in long documents, correct data in Excel sheets, and change a word across all slides in a presentation.

Ans. (b)

118. If you want to save a workbook in MS Excel 365 so that it is view-only and editing is restricted, which feature should you use?

RRB NTPC CBT-1, 10/06/2025 (Shift-01)

- (a) Read Aloud
- (b) Read-Only Mode
- (c) Freeze Panes
- (d) Print Layout

Exp.- In MS Excel 365, to make a workbook view-only and prevent editing, you save it in **Read-Only mode** and use features like “Mark as Final.”

Ans. (b)

119. During computer operation, temporary data storage uses “RAM (Random Access Memory)”.

RRB NTPC CBT-1, 05/06/2025 (Shift-03)

- (a) Hard Disk
- (b) Cache
- (c) ROM
- (d) RAM

Exp.- Random Access Memory (RAM) is a temporary and fast memory of the computer, used by the processor to read and write data immediately, and it stores data temporarily while the computer is running.

Ans. (d)

120. Which component of Windows OS allows users to modify system settings such as display resolution, sound preferences, and user accounts?

RRB NTPC CBT-1, 20/06/2025 (Shift-03)

- (a) Task Manager
- (b) File Explorer
- (c) Command Prompt
- (d) Control Panel

Exp.- Control Panel is an important part of the Windows operating system that helps users manage system settings and configurations. It is used to change printer, mouse, keyboard, sound settings, as well as Wi-Fi, network settings, and connections.

Ans. (d)

121. When a user presses the Bullet button (•) in MS Word, what happens?

RRB NTPC CBT-1, 19/06/2025 (Shift-01)

- (a) The selected text is converted into a bulleted list
- (b) The selected text is converted into a numbered list
- (c) The text alignment changes to center
- (d) The font size increases

Exp.- In Microsoft Word, the Bullet button (•) is used to convert the selected text into a bulleted list, and it is used to display a list or key points in order.

Ans. (a)

122. When you use ‘Cut and Paste’ to move text, in MS Office the text goes to the clipboard before being pasted.

RRB NTPC CBT-1, 10/06/2025 (Shift-03)

- (a) In the clipboard
- (b) In the Recycle Bin
- (c) Permanently disappears until pasted
- (d) Stored in a temporary document

Exp.- In MS Office (like Word, Excel, PowerPoint), the Ctrl + X (Cut) command is used to remove the selected text or object and temporarily store it in the clipboard, and Ctrl + V (Paste) is used to move it elsewhere.

Ans. (a)

123. Which memory is non-volatile and is used to store essential system instructions in a computer?

RRB NTPC CBT-1, 24/06/2025 (Shift-01)

- (a) Registers
- (b) RAM
- (c) ROM
- (d) Cache Memory

Exp.- ROM (Read-Only Memory) is non-volatile memory (retains data even when power is off) and is used to store essential system instructions in a computer, such as those needed for the booting process.

Ans. (c)

124. In the MS PowerPoint 2019 interface, to quickly save changes in the current presentation, which icon should be clicked?

RRB NTPC CBT-1, 24/06/2025 (Shift-03)

- (a) 
- (b) 
- (c) 
- (d) 

Exp.- In MS PowerPoint, to quickly save changes, the “floppy disk” icon is clicked, which is usually located on the toolbar.

Ans. (c)

125. What is the purpose of Slide Master in MS PowerPoint?

RRB NTPC CBT-1, 05/06/2025 (Shift-1)

- (a) Insert animations and transitions
- (b) Export slides as images
- (c) Apply uniform formatting, fonts, and layout to all slides
- (d) Delete multiple slides at once

Exp.- The Slide Master feature in MS PowerPoint is used to control the design, layout, and formatting of the entire presentation from a single place. It helps maintain consistency across slides.

Ans. (c)

126. What is the default name given to a folder in the Windows system?

RRB NTPC CBT-1, 19/06/2025 (Shift-01)

- (a) Default Folder
- (b) Untitled Folder
- (c) Folder
- (d) New Folder

Exp.- In the Windows operating system, when a new folder is created (Right-click → New → Folder), its default name is “New Folder.”

Ans. (d)

127. In Windows applications, which function key can be used with Alt to close the current application?

RRB NTPC CBT-1, 10/06/2025 (Shift-02)

- (a) F6
- (b) F1
- (c) F10
- (d) F4

Exp.- Alt + F6 - Easily switch between pane and document.

- Alt + F10 - Open/close the Selection Pane.
- Alt + F1 - Show field help and provide information about a specific field or button.

Ans. (d)

128. In MS Word 365, which tab contains options to change page margins, orientation, and size?

RRB NTPC CBT-1, 17/06/2025 (Shift-02)

- (a) Insert
- (b) Layout
- (c) Home
- (d) Review

Exp.- Microsoft-developed cloud-based word processing software used to create, edit, format, and share documents. In MS Word 365, options like Margins, Orientation, and Size are available under the **Layout tab**.

Ans. (b)

129. How do we customize bullets in MS Word?

RRB NTPC CBT-1, 07/06/2025 (Shift-02)

- (a) Home → Bullets → Define New Bullet
- (b) View → Zoom
- (c) Layout → Margins
- (d) Insert → Picture

Exp.- To customize bullets in MS Word, go to the “Home” tab, click on the “Bullets” dropdown, and select the “Define New Bullet” option.

Ans. (a)

130. To customize bullets in MS Word, go to the “Home” tab, click the “Bullets” dropdown, and select “Define New Bullet.”

RRB NTPC CBT-1, 23/06/2025 (Shift-03)

- (a) Drag and Drop
- (b) Format Painter
- (c) Cut and Paste
- (d) Ctrl + Drag

Exp.- Format Painter only copies the formatting of text (such as font, color, style) and does not move the text. Drag and drop, Format Painter, and Ctrl + drag are ways to move selected text.

Ans. (b)

131. In electronics, the full form of PCB is Printed Circuit Board.

RRB NTPC CBT-1, 19/06/2025 (Shift-03)

- (a) Printed Circuit Board
- (b) Personal Control Board
- (c) Portable Control Base
- (d) Power Circuit Board

Exp.- PCB (Printed Circuit Board) is a thin board on which electronic components (such as resistors, capacitors, transistors, etc.) are mounted.

Ans. (a)

132. In Windows 11 OS, to create a new folder from the desktop, which of the following methods is used?

RRB NTPC CBT-1, 18/06/2025 (Shift-02)

- (a) Drag a file onto the desktop
- (b) Right-click → Select New → Choose Folder
- (c) Press Alt + F4
- (d) Press Alt + F4

Exp.- In Windows 11, a new folder is created on the desktop by right-clicking, hovering over the “New” option, and then selecting “Folder.”

- Alt + F4 - closes an open window or program.
- Ctrl + N - opens a new file or window in an application.

Ans. (b)

133. Which of the following devices can function as both an input and output device?

RRB NTPC CBT-1, 13/06/2025 (Shift-02)

- (a) Scanner
- (b) Microphone
- (c) Touch screen
- (d) Projector

Exp.- Devices that function as both input and output are called input-output devices. For example – touch screen, modem, network card, CD/DVD drive, USB drive (Pen Drive).

Ans. (c)

134. Which of the following components is not a part of the Central Processing Unit (CPU)?

RRB NTPC CBT-1, 14/06/2025 (Shift-02)

- (a) Registers
- (b) ALU
- (c) Graphic Card
- (d) CU

Exp.- A graphics card is a hardware used to increase a computer’s video memory and make its display high-definition.

- The CPU, although not an input or output device, operates on both input and output.
- The main components of the CPU are the ALU (Arithmetic Logic Unit), CU (Control Unit), and Registers.

Ans. (c)

135. In MS PowerPoint, to start a new line while typing inside a text box, which key should be pressed?

RRB NTPC CBT-1, 16/06/2025 (Shift-02)

- (a) Enter
- (b) Spacebar
- (c) Shift
- (d) Tab

Exp.- In PowerPoint, to start a new line, the Enter key is pressed. This moves the cursor to the next line, allowing you to continue typing there.

Ans. (a)

136. What is the correct way to save a new workbook in MS Excel?

RRB NTPC CBT-1, 19/06/2025 (Shift-02)

- (a) Go to the ‘Home’ tab and click ‘Save’
- (b) Press ‘Ctrl + P’
- (c) Click the ‘File’ tab and select ‘Save As’
- (d) Press ‘Ctrl + Enter’

Exp.- The correct way to save a new workbook in MS Excel is:

- Click the File tab, select “Save As,” then choose the location and file name, and save the workbook.

Ans. (c)

137. Consider a scenario where a user is interacting with a graphical application. Which component of the computer system is primarily responsible for rendering the visual elements displayed on the monitor?

RRB NTPC CBT-1, 14/06/2025 (Shift-01)

- (a) Graphics Processing Unit (GPU)
- (b) Random Access Memory (RAM)
- (c) Central Processing Unit (CPU)
- (d) Motherboard chipset

Exp.- When a user interacts with a graphical application (such as a game, design software, or video editor), the primary responsibility for processing and rendering the visuals on the screen lies with the GPU (Graphics Processing Unit). This unit processes graphical data at high speed to provide the user with a better visual experience.

Ans. (a)

138. In applications like Google Docs or web browsers, Ctrl + Shift + V pastes content without any formatting.

RRB NTPC CBT-1, 18/06/2025 (Shift-01)

- (a) Pastes content without any formatting
- (b) Opens the Find and Replace dialog box
- (c) Opens the Find and Replace dialog box
- (d) Saves the document as a new file

Exp.- Ctrl + V: Pastes normally — all formatting is included.

- Ctrl + Shift + V: Pastes only the text, without any formatting.

Ans. (a)

139. What is the shortcut to directly open an MS PowerPoint file from the application?

RRB NTPC CBT-1, 10/06/2025 (Shift-03)

- (a) Ctrl + S
- (b) Ctrl + P
- (c) Ctrl + O
- (d) Ctrl + N

Exp.- The Ctrl + O shortcut is used in Office applications like Word, Excel, etc., for the “Open” command. This shortcut immediately opens the file dialog box, allowing you to open any existing PowerPoint presentation file.

Ans. (c)

140. Which of the following methods is the easiest way to rename a file or folder in Windows?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) Press Ctrl + R
- (b) Right-click on the file/folder and select Rename
- (c) Double-click to open the file
- (d) Drag the file to the Recycle Bin

Exp.- In Windows operating system, to rename a file or folder, right-click on the file or folder, select “Rename,” and type the new name.

Ans. (b)

141. Which option allows you to set text at different margins within a paragraph in MS Word 365?

RRB NTPC CBT-1, 20/06/2025 (Shift-2)

- (a) Page Break
- (b) Indenting
- (c) Border
- (d) Line Spacing

Exp.- In MS Word, indenting is used to set text at different margins within a paragraph. Indenting places the first line of the paragraph at the margin and indents the remaining lines. Indenting can be used to format the paragraph.

Ans. (b)

142. In MS Word 365, to change the formatting of text to match other text in a document, which of the following tools can be used?

RRB NTPC CBT-1, 19/06/2025 (Shift-01)

- (a) Paragraph alignment
- (b) SmartArt
- (c) Format painter
- (d) Change styles

Exp.- In Microsoft Word 365, the **Format Painter** tool can be used to change the formatting of text to match existing text in a document. Using the Format Painter tool, the same formatting can be quickly applied to multiple texts or graphics. **Ans. (c)**

143. In MS Word 365, which option is correct to draw a line through the middle of the text?

RRB NTPC CBT-1, 10/06/2025 (Shift-01)

- (a) Line
- (b) Strikethrough
- (c) Dash
- (d) Underline

Exp.- In Microsoft Word 365, to draw a line through the middle of the text, the **Strikethrough** formatting is used. **Ans. (b)**

144. In MS Excel 365, when you right-click on a cell and select 'Filter', which of the following options does not appear?

RRB NTPC CBT-1, 06/06/2025 (Shift-01)

- (a) Filter by selected cell's font
- (b) Filter by selected cell's font
- (c) Filter by selected cell's color
- (d) Filter by selected cell's height

Exp.- In Microsoft Excel, there is no option to filter based on cell height. However, there is an option to **filter the selected cells**. For this, the Ctrl + Shift + L shortcut can be used. **Ans. (c)**

145. In MS-Word 2019, which of the following settings is not found in the 'Indent and Spacing' tab of the 'Paragraph' dialog box?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) Indentation
- (b) Pagination
- (c) Spacing
- (d) General

Exp.- In Microsoft Word 2019, the **Pagination setting** is not found in the 'Indent and Spacing' tab of the 'Paragraph' dialog box. **Ans. (b)**

146. What is the main purpose of using a chart in MS-EXCEL?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) To store data
- (b) To format text
- (c) To present data visually
- (d) To perform calculations

Exp.- An Excel chart or graph is a visual representation of data from a Microsoft Excel worksheet. These graphs and charts allow you to see trends, make comparisons, identify patterns, and gain insights from raw numbers. **Ans. (c)**

147. In MS-Word 365, which keyboard shortcut is used to select a new font for the selected text?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) Ctrl + F
- (b) Ctrl + Shift + F
- (c) Shift + F
- (d) Ctrl + Alt + F

Exp.- In Microsoft Word, the shortcut **Ctrl + Shift + F** is used to change the font. This shortcut opens the Font dialog box, which contains font-related options such as font family, font style, point size, and text color. **Ans. (b)**

148. Which keyboard shortcut allows you to directly edit the contents of a selected cell in Microsoft Excel 365?

RRB NTPC CBT-1, 20/06/2025 (Shift-01)

- (a) Ctrl + E
- (b) Ctrl + C
- (c) F12
- (d) F2

Exp.- In Microsoft Excel 365, pressing **F2** allows you to directly edit the contents of the selected cell.

- **Ctrl + E:** Used in both Microsoft Word and Excel to center-align text on the screen.
- **F12:** Used in Microsoft Word to save files, print, and increase audio volume. **Ans. (d)**

149. Which of the following keyboard shortcuts is used to perform the Undo operation in MS Word?

RRB NTPC CBT-2, 16/06/2022 (Shift-01)

- (a) Ctrl+Z
- (b) Alt + U
- (c) Ctrl+U
- (d) Alt + Z

Exp.- The keyboard shortcut **Ctrl + Z** is used to perform the **Undo** operation in **MS Word**.

- **Alt + U** is used to underline selected text and may also open special menus in some applications.
- **Ctrl + U** applies underline formatting to selected text in various applications, such as **Microsoft Word** and **Google Docs**. **Ans. (a)**

150. Each cell of a memory device is capable of storing one bit of information in binary numbers. What does the term 'bit' mean?

RRB NTPC CBT-2, 16/06/2022 (Shift-03)

- (a) Binary Divisor
- (b) Bidirectional Divisor
- (c) Binary Digit
- (d) Bidirectional Digit

Exp.- A **binary digit** refers to a numerical value that has only two digits: 0 and 1. These digits are used in computing and also represent the smallest unit of information. **Ans. (c)**

151. Which of the following is not an integral component of the MS Office 365 suite?

RRB NTPC CBT-2, 16/06/2022 (Shift-03)

- (a) MS Word
- (b) MS Access
- (c) MS Excel
- (d) MS Paint

Exp.- **MS Paint** is not an integral component of MS Office 365. **Ans. (d)**

152. Which type of read-only memory can be erased by exposing it to an electric charge and then reprogrammed?

RRB NTPC CBT-2, 12/06/2022 (Shift-02)

- (a) EEPROM
- (b) PROM
- (c) EPROM
- (d) ROM

Exp.- **EEPROM** is a read-only memory that can be erased by exposing it to an electric charge and then reprogrammed. **Ans. (a)**

153. Which of the following MS Word features draws a line through the middle of the text to cross it out?

RRB NTPC CBT-2, 17/06/2022 (Shift-01)

- (a) Pagination
- (b) Underline
- (c) Strikethrough
- (d) Subscript

Exp.- In MS Word, the **Strikethrough** feature is used to draw a line through the middle of the text to cross it out. **Ans. (c)**

154. Which of the following is not a version of the Android mobile operating system?

RRB NTPC CBT-1, 31/07/2021 (Shift-01)

- (a) Pie
- (b) Lollipop
- (c) Candy Bean
- (d) Marshmallow

Exp.- **Candy Bean** is not a version of the Android mobile operating system. **Ans. (c)**

155. Which of the following uses a multi-user operating system?

RRB NTPC CBT-1, 31/07/2021 (Shift-01)

- (a) Desktop PC
- (b) Embedded Computer
- (c) Server
- (d) Handheld Computer

Exp.- A **server** is a computer program or device that provides services to other computers on the network, called clients. **Ans. (c)**

156. In terms of memory, what is the full form of USB?

RRB NTPC CBT-2, 09/05/2022 (Shift-02)

- (a) Unique Serial Bus
- (b) Unique Service Bus
- (c) Universal Serial Bus
- (d) Universal Service Bus

Exp.- In terms of memory, the full form of USB is **Universal Serial Bus**. **Ans. (c)**

157. A shared network within an organization that provides connectivity to employees is called:

RRB NTPC CBT-1, 26/07/2021 (Shift-01)

- (a) Internet (b) Extranet
(c) Delnet (d) Intranet

Exp.- An **intranet** is a restricted network used within an organization to facilitate internal communication and collaboration.

- The main purpose of an **intranet** is to connect employees through an integrated platform so that they can communicate securely and effectively. Ans. (d)

158. _____ is a graphical web browser based on the WebKit browser engine.

RRB NTPC CBT-1, 26/07/2021 (Shift-01)

- (a) Appy Pie Design
(b) Adobe Illustrator
(c) Safari
(d) CorelDRAW

Exp.- **Safari** is a graphical web browser based on the WebKit browser engine.

Ans. (c)

159. A group of four bits is called _____.

RRB NTPC CBT-1, 26/07/2021 (Shift-01)

- (a) Megabyte (b) Nibble
(c) Byte (d) Kilobyte

Exp.- A group of four bits is called a **nibble**.

- A **megabyte (MB)** is a unit of data measurement used to measure computer storage and memory (RAM) capacity. Ans. (b)

160. Which of the following device interfaces was invented by Douglas Engelbart?

RRB NTPC CBT-1, 23/07/2021 (Shift-01)

- (a) Compact Disc (CD)
(b) USB Port
(c) Floppy Disk
(d) Computer Mouse

Exp.- Douglas Engelbart invented the **computer mouse**.

- The **compact disc (CD)** was invented by **American physicist James Russell**. Ans. (d)

161. Which of the following is not open-source software?

RRB NTPC CBT-1, 08/04/2021 (Shift-01)

- (a) Android (b) Linux
(c) Microsoft (d) Mozilla Firefox

Exp.- **Microsoft** is not open-source software.

- **Open-source software** is software that is free to download, and anyone can edit, modify, or enhance it, meaning the software's source code is publicly available. Ans. (c)

162. Which of the following is not a database software used in computers?

RRB NTPC CBT-1, 08/04/2021 (Shift-01)

- (a) MS Access (b) Oracle
(c) FoxPro (d) MS Word

Exp.- **MS Word** is not a database software; it is a word processor.

- It was first released by Microsoft in **1983**. Ans. (d)

163. ROM is made of _____.

RRB NTPC CBT-1, 07/04/2021 (Shift-02)

- (a) Semiconductors
(b) Photovoltaic Cells
(c) Integrated Circuits
(d) Magnetic Tape

Exp.- ROM is made of **integrated circuits**.

Ans. (c)

164. Which of the following is used in global weather forecasting?

RRB NTPC CBT-1, 07/04/2021 (Shift-02)

- (a) Supercomputer
(b) Minicomputer
(c) Hybrid Computer
(d) Microcomputer

Exp.- **Supercomputers** are used in global weather forecasting. Ans. (a)

165. What is the full form of the first general-purpose electronic computer, ENIAC?

RRB NTPC CBT-1, 07/04/2021 (Shift-02)

- (a) Electronic Numerical Integrator and Computer
(b) Electronic Network Interactive Analytic Computer
(c) Electronic Network Integrated Analytical Computer
(d) Electronic Numerical Integrated Automatic Computer

Exp.- The full form of ENIAC is **Electronic Numerical Integrator and Computer**.

Ans. (a)

166. What was the name of the first electronic computer without mechanical parts, created by J.W. Mauchly and J. Presper Eckert?

RRB NTPC CBT-1, 06/04/2021 (Shift-01)

- (a) Mark II (b) EDVAC
(c) Mark I (d) ENIAC

Exp.- The first electronic computer without mechanical parts, created by J.W. Mauchly and J. Presper Eckert, was **ENIAC**.

- Its full form is '**Electronic Numerical Integrator and Computer**'.
- **ENIAC** was the world's first electronic digital computer. Ans. (d)

167. What is the name of the world's first electronic digital computer?

RRB NTPC CBT-1, 01/04/2021 (Shift-01)

- (a) PARAM (b) PROLOG
(c) UNIVAC (d) ENIAC

Exp.- Refer to the Q. No. 166. Ans. (d)

168. What is a Visual Display Unit (VDU)?

RRB NTPC CBT-1, 05/04/2021 (Shift-01)

- (a) Storage Unit (b) Monitor
(c) Server (d) System Memory

Exp.- A Visual Display Unit (VDU) is an output device. It is used as a synonym for a **monitor**. Ans. (b)

169. What is the full form of DOS?

RRB NTPC CBT-1, 05/04/2021 (Shift-01)

- (a) Device Outsourcing System
(b) Device Operating System
(c) Different Operating System
(d) Disk Operating System

Exp.- The full form of DOS is **Disk Operating System**, which runs from a disk drive. Ans. (d)

170. Which technology is used to provide high-speed internet access over a traditional modem line?

RRB NTPC CBT-1, 05/04/2021 (Shift-01)

- (a) ADSL (b) VDU
(c) LAN (d) Routers

Exp.- **Asymmetric Digital Subscriber Line (ADSL)** is a technology that allows high-speed video and voice transmission over standard copper telephone lines in homes. Ans. (a)

171. How is a computer identified on the Internet?

RRB NTPC CBT-1, 03/04/2021 (Shift-01)

- (a) By the owner's email address
(b) By a cryptographic code
(c) By a password
(d) By an IP address

Exp.- An **IP Address** is a unique numerical address that identifies every device on the Internet. It acts like a postal address, indicating where data should be sent on the Internet. Ans. (d)

172. Which of the following are the two main components of a CPU?

RRB NTPC CBT-1, 03/04/2021 (Shift-01)

- (a) Control Unit and Bus
(b) Control Unit and ALU
(c) ALU and Bus
(d) Register and Main Memory

Exp.- The **Central Processing Unit (CPU)** is the primary component of a computer that acts as its "control center."

- The **ALU** is an essential part of the CPU that performs arithmetic and logical operations. Ans. (b)

173. Which of the following acronym and its full form pair is incorrect?

RRB NTPC CBT-1, 01/04/2021 (Shift-01)

- (a) DBMS – Data Base Management System
- (b) URL – Uniform Reserve Locator
- (c) RAM – Random Access Memory
- (d) FAX – Facsimile

Exp.- The full form of **URL** is not 'Uniform Reserve Locator' but 'Uniform Resource Locator'. **Ans. (b)**

174. In Windows 11, what does the Alt + D keyboard shortcut do in File Explorer or a web browser?

RRB NTPC UG CBT-1, 19/08/2025 (Shift-03)

- (a) Displays desktop
- (b) Focuses the address bar
- (c) Deletes the selected file or folder
- (d) Duplicates the current tab

Exp. - In Windows 11, pressing Alt + D automatically activates the **address bar in File Explorer or a web browser**.

- This shortcut allows the user to quickly type into the address bar, whether it's a folder address or a URL in a web browser. **Ans. (b)**

175. Which of these elements is NOT part of the standard Windows 7 desktop?

RRB NTPC UG CBT-1, 03/09/2025 (Shift-03)

- (a) Notification Area
- (b) Control Panel
- (c) Start Button
- (d) Taskbar

Exp. - The Control Panel is a Windows system tool that allows you to change computer settings, hardware, and software options. However, it's not part of the desktop, but rather an application that you launch from the desktop. **Ans. (b)**

176. How can you access menus in the menu bar in Windows?

RRB NTPC UG CBT-1, 13/08/2025 (Shift-03)

- (a) Press Alt and the letter underlined in the menu title to access a menu.
- (b) Right-click on the title bar to open the menu bar.
- (c) Press Ctrl + M to open the menu.
- (d) Press F5 to open the menu bar.

Exp. - In Windows, you can access the menus in the menu bar by **pressing Alt and the underlined letter in the menu title**. **Ans. (a)**

177. What does the keyboard shortcut Ctrl + R do in web browsers?

RRB NTPC UG CBT-1, 13/08/2025 (Shift-01)

- (a) Renames a file or folder
- (b) Refreshes the active window
- (c) Restores deleted files
- (d) Runs a program

Exp. - In web browsers the keyboard shortcut Ctrl + R is used to **refresh or reload the current web page**, the browser reloads the webpage and displays the latest content. **Ans. (b)**

178. Which of the following is primarily a system configuration tool rather than a direct visual element of the MS Windows desktop interface?

RRB NTPC UG CBT-1, 11/08/2025 (Shift-01)

- (a) Start Menu
- (b) Taskbar
- (c) Control Panel
- (d) Recycle Bin

Exp. - The Control Panel is a Windows system configuration tool that allows users to **control computer settings such as hardware, network, user accounts, programs, security and other system parameters**.

- It is not a visual element of the desktop interface, but rather a utility that manages system settings in-depth. **Ans. (b)**

179. What happens when you create a folder with the same name in the same location?

RRB NTPC UG CBT-1, 12/08/2025 (Shift-01)

- (a) It opens the original folder.
- (b) The system automatically re-names it.
- (c) It replaces the old folder.
- (d) It gives an error.

Exp. - When you try to create a folder with the same name in the same location, the operating system usually doesn't let you do so and will **give you an error message or give you the option to rename the folder**. **Ans. (d)**

180. What does the abbreviation 'SRAM' stand for in computer memory?

RRB NTPC UG CBT-1, 08/08/2025 (Shift-01)

- (a) Standard Random Access Memory
- (b) Static Read Access Memory
- (c) Static Random Access Memory
- (d) Synchronous Read Access Memory

Exp. - In computer memory, 'SRAM' stands for **Static Random Access Memory**, which is a type of volatile memory, meaning the data stored in it is erased when the power supply is turned off, it retains the data as long as the power supply is on and it provides faster access to data than Dynamic Random Access Memory (DRAM). **Ans. (c)**

181. What is the correct way to copy a file or folder using the Drag and Drop method?

RRB NTPC UG CBT-1, 02/09/2025 (Shift-01)

- (a) Double-click the file → Drag it back into the same folder
- (b) Right-click the file → Drag it to the desktop → Press Delete
- (c) Select the file in the right pane → Drag it to a folder in the left pane → Drop it there
- (d) Select the file → Press Ctrl + C → Drop it into the Recycle Bin

Exp. - Drag and drop is a common GUI (Graphical User Interface) technique **used to copy or move files and folders**.

- If you drag a file from the right pen to another folder in the left pen, the file is copied or moved there. **Ans. (c)**

182. Which of the following options is used to change the system settings in MS Windows?

RRB NTPC UG CBT-1, 03/09/2025 (Shift-03)

- (a) Task Manager
- (b) Control Panel
- (c) File Explorer
- (d) Command Prompt

Exp. - The Control Panel is a key tool in the Windows operating system used to view and change system settings. It allows you to configure hardware, software, networks, user accounts, security settings, and more. **Ans. (b)**

183. What is the function of the keyboard shortcut Ctrl + Z?

RRB NTPC UG CBT-1, 28/08/2025 (Shift-03)

- (a) Redo an action
- (b) Close the window
- (c) Undo the last action
- (d) Zoom the window

Exp. - Ctrl + Z key is used to **undo the action**, this shortcut is available in almost every type of software, such as Microsoft Word, Excel, photo editing software and browsers. **Ans. (c)**

184. What happens when a user right-clicks on an empty area of the MS Windows desktop?

RRB NTPC UG CBT-1, 20/08/2025 (Shift-02)

- (a) The Task Manager opens.
- (b) The File Explorer is launched.
- (c) The Start Menu is displayed.
- (d) A context menu with view and display settings is opened.

Exp. - When you right-click on an empty space on the Windows desktop, a context menu opens. This **menu provides desktop view options, personal settings, display settings, and options for creating a new item**. **Ans. (d)**

185. Which of the following is the correct method to rename a file or folder using the left mouse button?

RRB NTPC UG CBT-1, 28/08/2025 (Shift-02)

- (a) Select the file → Press F1 → Type new name → Press Enter
- (b) Click and drag the file → Rename it in the pop-up window
- (c) Double-click the file name → Type the new name → Press Esc
- (d) Select the file → Press F2 or click once on the name → Type new name → Press Enter

Exp. - The most common way to rename a file or folder in Windows is to **select the file → press F2 or click the name once → type the new name → press Enter.**
Ans. (d)

186. Select the correct sequence of steps to create a new folder on the desktop?

RRB NTPC UG CBT-1, 29/08/2025 (Shift-01)

- (a) Open File Explorer → Right-click Desktop → New Folder
- (b) Right-click Desktop → New → Folder
- (c) Right-click Taskbar → Select Folder → Press Enter
- (d) Click Start → Settings New → Folder

Exp. - The correct and simple way to create a new folder on the desktop is: **Right click on the desktop → Go to New → Folder.**
Ans. (b)

187. What does the abbreviation 'MAN' stand for in computer networking?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-01)

- (a) Medium Access Network
- (b) Mobile Area Network
- (c) Metropolitan Area Network
- (d) Main Access Node

Exp. - **Metropolitan Area Network** is a computer network that connects computers within a metropolitan area, which may be a large city, several cities and towns, or any large area with many buildings.

- **Metropolitan Area Network (MAN)** is larger than a local area network (LAN) but smaller than a wide area network (WAN).
Ans. (c)

188. Which of the following allows users to delete a file using the mouse?

RRB NTPC UG CBT-1, 08/08/2025 (Shift-02)

- (a) Minimize the window
- (b) Left-click the file
- (c) Drag it to the Recycle Bin
- (d) Copy the file

Exp. - To delete a file using the mouse in Windows, the simplest way is to **grab the file and drag and drop it into the Recycle Bin.**
Ans. (c)

189. A user wants to rename multiple files in a folder on Windows. What is the correct approach to do this efficiently?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-03)

- (a) Drag files to another folder and rename them there
- (b) Open each file and save it with a new name
- (c) Press Ctrl + Alt + R to rename all files
- (d) Select all files → Right-click → Rename → Type a base name

Exp. - The most efficient way to rename multiple files in a folder on Windows is to **select the files → Right-click → Choose Rename option → Type the base name and press Enter.**
Ans. (d)

190. Which Windows feature helps to quickly locate a specific file in a large folder?

RRB NTPC UG CBT-1, 02/09/2025 (Shift-02)

- (a) Right-click → Delete
- (b) Task Manager
- (c) Search box in File Explorer
- (d) Control Panel

Exp. - The **Search box in File Explorer** is a tool located in the upper right corner of the File Explorer window that helps you **quickly find and locate a specific file within a large folder in Windows.**
Ans. (c)

191. Which MS Windows feature allows users to personalize their desktop background, theme and screensaver settings?

RRB NTPC UG CBT-1, 19/08/2025 (Shift-03)

- (a) Personalization Settings
- (b) Device Manager
- (c) Disk Management
- (d) Task Scheduler

Exp. - MS Windows offers the **Personalization feature**, which allows users to customize their desktop background, theme, and screensaver settings. The background, colors, lock screen, themes, and other visual settings can be changed to suit your preferences.
Ans. (a)

192. What is the function of the Alt + F4 shortcut?

RRB NTPC UG CBT-1, 01/09/2025 (Shift-02)

- (a) Saves the document
- (b) Closes the current window or application
- (c) Refreshes the browser
- (d) Opens a new window

Exp. - Alt + F4 is a keyboard shortcut in the Windows operating system, **used to close any currently open window, application or program.**
Ans. (b)

193. To change the desktop wallpaper, which option would you choose?

RRB NTPC UG CBT-1, 08/08/2025 (Shift-03)

- (a) Settings > Personalization
- (b) Settings > Apps
- (c) Settings > Ease of Access
- (d) Settings > Devices

Exp. - To change the desktop wallpaper, right-click anywhere on the desktop and **select the "Personalize" or "Background image settings" option**, then choose a picture, solid color, or slideshow of your choice.
Ans. (a)

194. How can you resize a window using its corners or borders in Windows?

RRB NTPC UG CBT-1, 29/08/2025 (Shift-03)

- (a) Press Alt + Enter to auto-resize the window.
- (b) Place the mouse pointer over a border or corner until it turns into a double-headed arrow, then drag.
- (c) Click the middle of the window and press Ctrl.
- (d) Drag the title bar to change the size.

Exp. - To resize any window in Windows, **grab the mouse pointer from the edge or corner and drag it until the cursor turns into a double-headed arrow.**
Ans. (b)

195. To adjust the screen resolution or change the desktop background in Windows, which of the following would a user typically access?

RRB NTPC UG CBT-1, 09/09/2025 (Shift-01)

- (a) This PC
- (b) Documents
- (c) Run
- (d) Settings

Exp. - If you want to adjust the screen resolution or change the desktop background in Windows, the most appropriate way is **Settings > System / Personalization.**
Ans. (d)

196. Which of the following is an example of an operating system commonly used on laptops?

RRB NTPC UG CBT-1, 11/08/2025 (Shift-03)

- (a) Windows 11
- (b) Microsoft Word
- (c) Google Chrome
- (d) Adobe Photoshop

Exp. - **Windows 11** is a full-fledged operating system that is most commonly used on laptops, while other options are Microsoft Word, Google Chrome, and Adobe Photoshop application software.
Ans. (a)

197. Which of the following pairs correctly classifies one input and one output device?

RRB NTPC UG CBT-1, 28/08/2025 (Shift-03)

- (a) Joystick - Output device, Speaker - Input device
- (b) Microphone - Input device, Monitor - Output device
- (c) Keyboard - Output device, Printer - Input device
- (d) Mouse - Output device, Scanner - Input device

Exp. - The pairing of a microphone and a monitor is a perfect example of an input and output device, as one provides information to the computer (input) and the other displays it (output).

- **Input Devices:** These devices transmit data from the user to the computer.
- **Output Devices:** These devices display or play information received from the computer to the user. **Ans. (b)**

198. Select the INCORRECT operating system used in computers and laptops.

RRB NTPC UG CBT-1, 18/08/2025 (Shift-03)

- (a) Windows (b) Android
- (c) Unix (d) Linux

Exp. - Windows, Unix, and Linux are all suitable operating systems for computers and laptops, while **Android is a mobile operating system** developed by Google that works on smartphones, tablets, and some smart TVs. **Ans. (b)**

199. What happens when you double-click an icon on the desktop?

RRB NTPC UG CBT-1, 28/08/2025 (Shift-01)

- (a) It gets deleted.
- (b) It goes to the Taskbar.
- (c) It minimizes the window.
- (d) It opens the application or file.

Exp. - Double-clicking an icon on the desktop opens the corresponding application, folder or file. This action is commonly used in operating systems such as Windows to open a shortcut icon, file or folder. **Ans. (d)**

200. What does the abbreviation EBCDIC stand for?

RRB NTPC UG CBT-1, 03/09/2025 (Shift-02)

- (a) Extended Binary Coded Decimal Interchange Code
- (b) Encoded Binary Character Data Interchange Code
- (c) Electronic Binary Code for Data Interchange Communication
- (d) Extended Binary Code for Digital Information Communication

Exp.- EBCDIC stands for **Extended Binary Coded Decimal Interchange Code**. EBCDIC is a type of character encoding developed by IBM (International Business Machines). It is primarily used in IBM's mainframe computers. **Ans. (a)**

201. Which of the following is the correct sequence to create a new file in WordPad on a Windows computer?

RRB NTPC UG CBT-1, 29/08/2025 (Shift-03)

- (a) Insert → New File
- (b) File → New
- (c) File → Open → New Document
- (d) Home → New File

Exp.- The correct order for creating a new file in WordPad is **File → New**. WordPad is a basic text editor that comes pre-installed in the Windows operating system. It is used for word processing, but it doesn't have the advanced features of Microsoft Word. **Ans. (b)**

202. Which of the following is used to access programs, files and settings in Windows 7?

RRB NTPC UG CBT-1, 09/09/2025 (Shift-02)

- (a) Notification Area
- (b) Start Button
- (c) Control Panel
- (d) Taskbar

Exp.- The **Start button** in Windows 7 is the most important part of the Windows operating system, **located in the lower-left corner of the screen**.

- When you click this button, a menu called the Start Menu opens. **Ans. (b)**

203. In FIFO scheduling, which process is executed first?

RRB NTPC UG CBT-1, 29/08/2025 (Shift-02)

- (a) The process that arrives last
- (b) The process that arrives first
- (c) The process with the shortest execution time
- (d) The process with the highest priority

Exp.- FIFO stands for First-In, First-Out, meaning **"whatever comes first is executed first."**

- It is a process scheduling algorithm used in an operating system to allocate CPU time to processes. **Ans. (b)**

204. Which key combination is commonly used in Windows OS to open the Task Manager?

RRB NTPC UG CBT-1, 07/08/2025 (Shift-03)

- (a) Alt + F4
- (b) Ctrl + Shift + Esc
- (c) Ctrl + Tab
- (d) Alt + Tab

Exp.- The key combination **Ctrl + Shift + Esc** is commonly used in Windows to open the Task Manager.

- Task Manager is a special tool in the Windows operating system that provides information about which programs and processes are running, their CPU, memory, and network usage, and how to close a frozen or unresponsive program. **Ans. (b)**

205. In some file management programs, which shortcut key combination is used to copy a selected item instead of moving it?

RRB NTPC UG CBT-1, 19/08/2025 (Shift-02)

- (a) Alt + F4 (b) Alt + Tab
- (c) Alt + Ins (d) Alt + Del

Exp.- In file management programs, which shortcut key combination **Alt + Ins** is used to copy the selected item instead of moving it.

- File management programs such as Windows File Explorer, Norton Commander, Total Commander, or other dual-panel file managers. They are used to view, copy, move, delete, or organize files. **Ans. (c)**

206. Which shortcut key opens System Settings quickly in Windows 10/11?

RRB NTPC UG CBT-1, 28/08/2025 (Shift-01)

- (a) Windows + D
- (b) Windows + I
- (c) Ctrl + Alt + Del
- (d) Alt + F4

Exp.- The **Windows + I** shortcut key quickly opens System Settings in Windows 10/11.

- The "Settings" app in Windows 10/11 is where you can control most of your computer's settings, such as: Network & Internet, Device Settings (Bluetooth, Printer), System Updates, Personalization, Privacy & Security, Time & Language, etc. **Ans. (b)**

207. Which of the following is the correct method to create a new folder using the File menu in Windows 7?

RRB NTPC UG CBT-1, 22/08/2025 (Shift-02)

- (a) Start File → Folder New
- (b) Control Panel → File Create → New Folder
- (c) Open Computer Open desired drive (e.g., D:) → Click on File → New → Folder
- (d) Open Computer → Right-click drive → File → New Folder

Exp.- To create a new folder using the File menu in Windows 7, **open Computer, select the desired drive (e.g., D:) → click File → New → Folder.** **Ans. (c)**

208. Which shortcut key combination allows you to quickly switch between open applications on a Windows computer?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-01)

- (a) Alt + Tab (b) Alt + F4
- (c) Ctrl + Tab (d) Alt + Del

Exp.- The “**Alt + Tab**” shortcut key is used in Windows to open multiple applications or windows simultaneously in the Windows operating system.

Ans. (a)

209. Which key is used to rename a file or folder in Windows?

RRB NTPC UG CBT-1, 01/09/2025 (Shift-02)

- (a) F5 (b) F2
- (c) CTRL + N (d) ESC + N

Exp.- In Windows, the **F2** key is used to **rename** a file or folder.

The **F5** key **refreshes** the screen.

- **CTRL + N** opens a **new window/document/tab.**

Ans. (b)

210. Which desktop element in Windows displays system notifications, date and time, and background apps status?

RRB NTPC UG CBT-1, 12/08/2025 (Shift-01)

- (a) Notification Area
- (b) Start Menu
- (c) Control Panel
- (d) File Explorer

Exp.- The Notification Area (Notification Area) is also called the “**System Tray**” in Windows. It is located in the **lower-right corner of the desktop screen** and its primary function is to provide the user with immediate system-related information.

Ans. (a)

211. Identify the correct combination of the abbreviation, its full form and its application.

RRB NTPC UG CBT-1, 20/08/2025 (Shift-01)

- (a) ASCII - American Standard Code for Information Interchange - Encodes text in computers
- (b) LAN - Large Area Network - Used for connecting computers across continents
- (c) ASCII - Automated Symbolic Code for Integrated Input - Converts images to code
- (d) CD - Compact Disk - Used for high-speed internet access

Exp.- Among the given options, option (a) **ASCII - American Standard Code for Information Interchange - encodes text in computers**, is the correct combination of the acronym, its full form, and its application.

- ASCII is a character encoding scheme used in computer systems to convert text and characters into digital format.
- ASCII was **developed in the US in 1963** and is still widely used.

Ans. (a)

212. What does the abbreviation ASCII stand for?

RRB NTPC UG CBT-1, 14/08/2025 (Shift-02)

- (a) American Standard Code for Information Interchange
- (b) Analog Signal Coding Interface Index
- (c) Automated System for Computer Integrated Information
- (d) Advanced Secure Communication Interface

Exp.- Refer to the Q. No. 211. **Ans. (a)**

213. What does the abbreviation ASCII stand for?

RRB NTPC UG CBT-1, 03/09/2025 (Shift-02)

- (a) American Standard Code for Internet Information
- (b) American Standard Code for Information Interchange
- (c) Automated System Code for International Interfacing
- (d) Advanced Standard Communication for Information Integration

Exp.- Refer to the Q. No. 211. **Ans. (b)**

214. What does ASCII stand for?

RRB NTPC UG CBT-1, 29/08/2025 (Shift-01)

- (a) Automated System for Computer Information Interchange
- (b) Advanced Standard Coding in Information Industry
- (c) Auxiliary System for Communication and Interchange
- (d) American Standard Code for Information Interchange

Exp.- Refer to the Q. No. 211. **Ans. (d)**

215. What does the abbreviation ASCII stand for?

RRB NTPC UG CBT-1, 21/08/2025 (Shift-02)

- (a) American Standard Code for Information Interchange
- (b) Advanced System for Computer Input and Integration
- (c) American Scientific Code for Internet Integration
- (d) Automatic System for Coding Interactive Interfaces

Exp.- Refer to the Q. No. 211. **Ans. (a)**

216. Which option in the Control Panel allows a user to add or remove hardware devices in MS Windows?

RRB NTPC UG CBT-1, 21/08/2025 (Shift-02)

- (a) Security and Maintenance
- (b) Device Manager
- (c) System and Security
- (d) Network and Sharing Center

Exp.- **Device Manager** is a Windows utility tool that lists, displays the status and driver information of all hardware devices connected to a computer.

Ans. (b)

217. Which of the following shortcut keys is used to switch between open applications in Windows?

RRB NTPC UG CBT-1, 20/08/2025 (Shift-01)

- (a) Alt + Tab (b) Alt + Ins
- (c) Alt + F4 (d) Alt + Del

Exp.- **Alt + Tab** is a shortcut key combination to quickly switch between running applications in the Windows operating system.

Ans. (a)

218. Which keyboard button is used as a shortcut to rename a selected file or folder in Windows?

RRB NTPC UG CBT-1, 22/08/2025 (Shift-01)

- (a) Ctrl (b) F5
- (c) F2 (d) Esc

Exp.- In the Windows operating system, the **F2** key is used when you want to rename a file or folder.

Ans. (c)

219. What is the primary function of the Taskbar in Windows?

RRB NTPC UG CBT-1, 02/09/2025 (Shift-02)

- (a) To install new software
- (b) To display the system BIOS
- (c) To show open programs and allow quick access to them
- (d) To shut down the computer

Exp.- The Windows 7 taskbar **allows users to quickly view and access open programs.**

- It makes multitasking easy and efficient, showing currently running programs and windows, quickly switching between programs, and quickly accessing favorite applications.

Ans. (c)

220. Which key combination is used to permanently delete a file without sending it to the Recycle Bin?

RRB NTPC UG CBT-1, 08/09/2025 (Shift-03)

- (a) Alt + F4 (b) Ctrl + D
(c) Shift + Delete (d) Shift + F2

Exp.- The **Shift + Delete** key combination is used to permanently delete a file without sending it to the Recycle Bin.

- In the Windows operating system, when you delete a file normally (by pressing the Delete button), that file goes to the Recycle Bin. *Ans. (c)*

221. The desktop background is also known as:

RRB NTPC UG CBT-1, 07/08/2025 (Shift-01)

- (a) file (b) wallpaper
(c) icon (d) menu

Exp.- When you open Windows or other operating systems on any computer or laptop screen, the **background that appears behind it** is called **wallpaper**.

Ans. (b)

222. Which of the following correctly pairs the abbreviation with its full form and primary function?

RRB NTPC UG CBT-1, 11/08/2025 (Shift-01)

- (a) CD - Central Disc - Stores operating system permanently
(b) LAN - Local Area Network - Connects computers within a limited area
(c) ASCII - American Standard Communication for Input and Interface - Used for graphic design
(d) ASCII - Advanced System for Communication Interface - Used in LAN setup

Exp.- The correct full form of **LAN** is **Local Area Network**. It is a type of computer network that connects computers and other devices within a **limited geographical area** (such as a home, school, office, or a single building).

- Through this, users can share data, files, printers, and Internet connections. *Ans. (b)*

223. What does the 'Ctrl + V' shortcut key do?

RRB NTPC UG CBT-1, 14/08/2025 (Shift-02)

- (a) It copies the selected text or files.
(b) It cuts the selected text or files.
(c) It pastes the copied text or files.
(d) It saves the current document.

Exp.- '**Ctrl + V**' shortcut key is **used to paste the copied text or files**. *Ans. (c)*

224. What does CPU stand for in computer systems?

RRB NTPC UG CBT-1, 01/09/2025 (Shift-01)

- (a) Control Processing Unit
(b) Central Program Unit
(c) Computer Processing Unit
(d) Central Processing Unit

Exp.- **CPU (Central Processing Unit)** is the central part of the computer, it is called the **"brain" of the computer**. It performs all types of calculations, processing of instructions and data management. *Ans. (d)*

225. Which of the following abbreviations is correctly matched with its meaning?

RRB NTPC UG CBT-1, 14/08/2025 (Shift-03)

- (a) ASCII - Automated System for Computer Input
(b) LAN - Large Area Network
(c) CD- Compact Disc
(d) LAN - Local Area Node

Exp.- **CD - Compact Disc** is the only option that correctly matches its acronym and function.

- A CD is an **optical storage device** used to store and access data. *Ans. (c)*

226. Which of the following combinations of shortcut keys and functions is correctly matched?

RRB NTPC UG CBT-1, 03/09/2025 (Shift-01)

- (a) Ctrl + C - Copies content to the clipboard
(b) Ctrl + Tab - Copies the selected text
(c) Ctrl + V - Finds a specific word in the document
(d) Ctrl + F - Switches between open tabs

Exp.- The **Ctrl + C** shortcut key **copies any selected text, file, or other content to the clipboard**.

- The Ctrl + C shortcut works the same across all major operating systems (Windows, Linux, macOS) and software (MS Word, Excel, browsers, etc.) *Ans. (a)*

227. You want to create a file called "Notes.txt". Which tool would you use?

RRB NTPC UG CBT-1, 22/08/2025 (Shift-03)

- (a) Calculator
(b) Windows Media Player
(c) Notepad
(d) Paint

Exp.- **Notepad** is a simple text editor that comes by default in the Windows operating system. It is primarily used to **create and edit simple text files**. *Ans. (c)*

228. What does the shortcut key Ctrl + S do in most software applications?

RRB NTPC UG CBT-1, 07/08/2025 (Shift-02)

- (a) Starts a new page
(b) Searches for text in a document
(c) Selects all content
(d) Saves the current document

Exp.- The main function of **Ctrl + S** is to **quickly save the current document**. If the file is already saved, it updates the file with the latest changes; if the file is new, it opens the "Save As" dialog box, where the user can choose the file name, location, and type. *Ans. (d)*

229. Which of the following steps allows you to create a new folder on the desktop in Windows?

RRB NTPC UG CBT-1, 01/09/2025 (Shift-03)

- (a) Go to Task Manager
(b) Open Notepad
(c) Right-click → New Folder
(d) Press Ctrl + Alt + Del

Exp.- To create a new folder on the desktop in Windows, **right-click on the desktop → New Folder**. This allows us to store our files in an organized manner. *Ans. (c)*

230. Which shortcut key combination is used to save a file quickly?

RRB NTPC UG CBT-1, 18/08/2025 (Shift-02)

- (a) Ctrl + C (b) Ctrl + F
(c) Ctrl + V (d) Ctrl + S

Exp.- **Ctrl + S** is a standard keyboard shortcut used to **quickly save a document, file, presentation or other task**.

- **Ctrl + C** copies the text or item **copied to the clipboard**.
- **Ctrl + F** is used to **search for a word or phrase in a document** or webpage.
- **Ctrl + V** **pastes** what has been copied to the clipboard. *Ans. (d)*

231. Which of the following is a small hand-held pointing device that controls the two-dimensional movement of the cursor on a screen?

RRB NTPC UG CBT-1, 12/08/2025 (Shift-01)

- (a) Keyboard (b) Scanner
(c) Mouse (d) Touchscreen

Exp.- A **mouse** is an input device that controls the position and movement of the cursor on a computer screen and is **used to point to or select objects on the screen**. *Ans. (c)*

Science and Technology

1. Which type of AI model did the Indian Institute of Science (IISc) team use in 2025 to create synthetic images that help improve object detection?

RRB NTPC CBT-1, 19-06-2025 (Shift-01)

- (a) Generative Adversarial Network (GAN)
(b) Recurrent Neural Network (RNN)
(c) Diffusion Model
(d) Transformer Model

Exp.- In May 2025, researchers at the Indian Institute of Science (IISc) developed an advanced technique to generate synthetic images using the **diffusion model**.

- The Indian Institute of Science (IISc) was established in 1909 under a visionary partnership between the renowned industrialist Jamsetji Nusserwanji Tata and the Government of India. **Ans. (c)**

2. What is the primary objective of the 'Trinetra' project developed by IIT Tirupati?

RRB NTPC CBT-1, 11/06/2025 (Shift-01)

- (a) To develop a mobile game promoting cybersecurity awareness
(b) To design a cybersecurity curriculum for university students
(c) To implement an AI-powered surveillance system in schools
(d) To establish a national cybersecurity task force

Exp.- The objective of IIT Tirupati's 'Trinetra' project is to raise awareness about cybersecurity among children, and this project is in the form of a web and mobile-based game, which will help teach children about **cyber threats and security measures**. **Ans. (a)**

3. How many launches of the LVM-3 rocket are planned for the Chandrayaan-4 mission?

RRB NTPC CBT-1, 13/06/2025 (Shift-2)

- (a) Three (b) One
(c) Four (d) Two

Exp.- Two launches of the LVM-3 rocket are planned for the Chandrayaan-4 mission.

- The Chandrayaan-4 lunar mission aims to develop and demonstrate techniques for successfully landing on the Moon, returning to Earth, collecting lunar samples, and analyzing them on Earth. **Ans. (d)**

4. _____ was the first artificial satellite launched by the Soviet Union in 1957.

RRB NTPC CBT-1, 05/04/2021 (Shift-01)

- (a) Bhaskara (b) Cartosat-2
(c) RISAT-1 (d) Sputnik-1

Exp.- In October 1957, the Soviet Union successfully launched the world's first artificial satellite, **Sputnik-1**. **Ans. (d)**

5. When was the successful launch of Chandrayaan-1?

RRB NTPC CBT-1, 31/07/2021 (Shift-01)

- (a) October 2008
(b) November 2011
(c) November 2009
(d) October 2010

Exp.- India's first lunar mission, Chandrayaan-1, was successfully launched on **22 October 2008**.

- Chandrayaan-1 was launched from Sriharikota, Andhra Pradesh, using PSLV-C11. **Ans. (a)**

6. When was the Mangalyaan mission launched?

RRB NTPC CBT-1, 26/07/2021 (Shift-01)

- (a) 05 November 2013
(b) 19 October 2010
(c) 08 May 2012
(d) 20 May 2014

Exp.- Mangalyaan was India's first interplanetary mission. It was launched by the Indian Space Research Organisation on **5 November 2013**. **Ans. (a)**

7. How many wheels did the Pragyan rover, deployed in the Chandrayaan-2 mission, have?

RRB NTPC CBT-1, 08/04/2021 (Shift-01)

- (a) 2 (b) 3
(c) 4 (d) 6

Exp.- The Pragyan rover deployed in the Chandrayaan-2 mission had **6 wheels**. It was a 6-wheeled robotic vehicle **weighing 27 kilograms**. **Ans. (d)**

8. Which of the following is an 'Earth observation satellite'?

RRB NTPC CBT-1, 03/04/2021 (Shift-01)

- (a) SARAL (b) INS-1A
(c) Yuthsat (d) APPLE

Exp.- India has several Earth observation satellites used for various purposes, such as weather forecasting, disaster management, agriculture, and environmental monitoring. Some major satellites operated by ISRO include Resourcesat-2A, Cartosat-2, Megha-Tropiques, and **SARAL**. **Ans. (a)**

9. In which district of Rajasthan is India's nuclear test site, Pokhran, located?

RRB NTPC CBT-1, 23/07/2021 (Shift-01)

- (a) Bikaner (b) Jaisalmer
(c) Balmer (d) Jodhpur

Exp.- On 18 May 1974, India conducted its first underground nuclear test, "**Smiling Buddha**," at Pokhran, Rajasthan. **Ans. (b)**

10. Which Indian institution has developed an affordable device that is capable of rapidly separating plasma from blood and purifying water, priced at ₹ 1,000?

RRB NTPC UG CBT-1, 08/08/2025 (Shift-03)

- (a) IIT Hyderabad (b) IIT Kanpur
(c) IISc Bangalore (d) IIIT-Allahabad

Exp. - Scientists at the Indian institute **IIT-Allahabad** have developed an indigenous, cost-effective device capable of quickly separating plasma from blood and purifying contaminated water.

- The device is easy to use and could be **especially useful in rural areas** where expensive medical equipment is not available. **Ans. (d)**

11. Which Indian institute developed a fluorescent sensor capable of detecting cyanide in water and human cells, using just a UV light source?

RRB NTPC UG CBT-1, 21/08/2025 (Shift-01)

- (a) IIT Delhi (b) IIT Madras
(c) IIT Bombay (d) IIT Guwahati

Exp. - **IIT Guwahati** has developed a fluorescent sensor that can detect the presence of cyanide in water and human cells using only a UV light source. **Ans. (d)**

12. DIGIPIN, an open-source nationwide geo-coded addressing system, is an alphanumeric code of how many characters based on latitude and longitude coordinates?

RRB NTPC UG CBT-1, 01/09/2025 (Shift-01)

- (a) 10 characters (b) 12 characters
(c) 8 characters (d) 6 characters

Exp. - The Digipin code is a **10-digit alphanumeric code** based on latitude and longitude coordinates, and provides the precise location of a property within a 4 meter × 4 meter grid.

- Digipin gives every property in India a unique digital identity, unlike the traditional PIN code that represents a larger area. **Ans. (a)**

- 13.** Who launched Prismix, an AI-driven media company?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-03)

- (a) Salman Khan (b) Ajay Devgn
(c) Amir Khan (d) Shahrukh Khan

Exp. - AI-powered media company Prismix was launched by actor Ajay Devgan, which will focus on **generative AI storytelling**. **Ans. (b)**

- 14.** Who launched the e-SeHAT application for accessible digital healthcare?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-03)

- (a) Pema Khandu
(b) Bhupendra Patel
(c) Hemant Soren
(d) Omar Abdullah

Exp. - Jammu and Kashmir Chief Minister **Omar Abdullah** launched the e-SEHAT app.

- The app is a one-stop digital health solution that provides services such as tele-diagnosis, health facility information, doctor availability, appointment booking, and more.

Ans. (d)

- 15.** Which Indian state is set to host the country's first AI-centric Special Economic Zone (SEZ)?

RRB NTPC UG CBT-1, 09/09/2025 (Shift-02)

- (a) Karnataka
(b) Tamil Nadu
(c) Maharashtra
(d) Chhattisgarh

Exp. - Chhattisgarh has launched plans to set up the country's first AI-focused **Special Economic Zone (SEZ)**.

- The SEZ for data-service-oriented technology activities will be spread over approximately **6 acres of land**, with a 1.5 lakh square feet data center, specifically for AI, and is proposed to attract an **investment of approximately ₹1,000 crore**. **Ans. (d)**

- 16.** The Indian Institute of Spices Research (IISR), Kozhikode, has developed a light-coloured turmeric variety named:

RRB NTPC UG CBT-1, 18/08/2025 (Shift-02)

- (a) IISR Suraj (b) IISR Surya
(c) IISR Sona (d) IISR Pitambar

Exp. - The Indian Institute of Spices Research (IISR) in Kozhikode, Kerala has developed a new light-colored turmeric variety for the spice industry, named **IISR Surya**.

- The light-colored rhizome of IISR Surya is suitable for producing high-quality turmeric powder and is suitable for both domestic and export markets.

Ans. (b)

- 17.** In which of the following years was Amazon.in launched in India?

RRB NTPC UG CBT-1, 04/09/2025 (Shift-02)

- (a) 2013 (b) 2008
(c) 2015 (d) 2010

Exp. - Amazon.in was launched in India in **June 2013**. It initially launched as an **online bookstore**, but gradually expanded its product range and today offers everything from smartphones to groceries.

Ans. (a)

- 18.** What is the core objective of the ISRO-European Space Agency (ESA) collaboration in the Axiom-4 mission?

RRB NTPC UG CBT-1, 21/08/2025 (Shift-02)

- (a) Microgravity-based scientific experiments
(b) Communications satellite deployment
(c) Lunar rover development
(d) Deep-space observation

Exp. - The Axiom-4 mission is a SpaceX Crew Dragon reusable spacecraft that carries astronauts to the International Space Station, **supporting scientific experiments and technological advancements in microgravity**.

Ans. (a)

- 19.** What is 'Google Beam' introduced under Project Starline?

RRB NTPC UG CBT-1, 22/08/2025 (Shift-01)

- (a) An AI-powered video communication platform aiming to redefine virtual interactions
(b) A hardware device for enhancing internet speed in rural areas
(c) A new satellite launched by Google for global internet coverage
(d) A language translation tool for real-time communication

Exp. - Google Beam is an **AI-powered video communication platform** that aims to make video calling so natural and lifelike that people feel like they're meeting in person, even when they're apart.

Ans. (a)

- 20.** Which ISRO mission, in collaboration with JAXA, aims to explore the Moon's polar regions?

RRB NTPC UG CBT-1, 22/08/2025 (Shift-01)

- (a) Chandrayaan-4
(b) Lunar Polar Exploration Mission
(c) Shukrayaan
(d) Chandrayaan-5

Exp. - The **Lunar Polar Exploration Mission**, often referred to as LUPEX, is a joint lunar mission between India's space agency **ISRO and Japan's JAXA**.

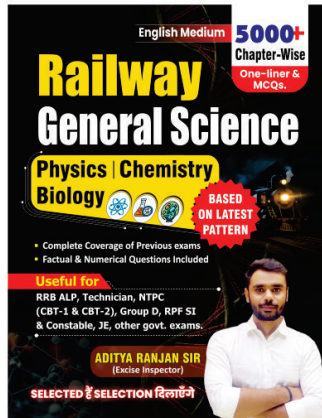

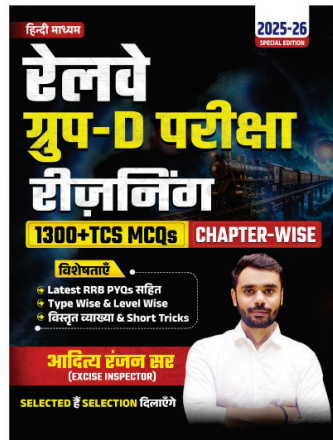

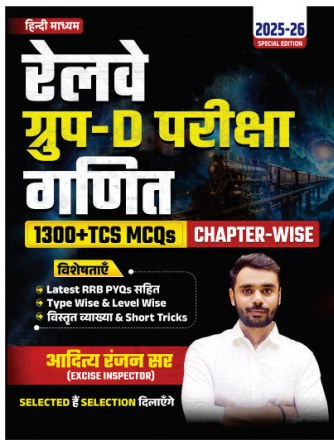

- The mission aims to investigate the presence of water in the Moon's south polar region, examine the lunar soil and atmosphere, and assess potential resources for future human missions.

Ans. (b)
